

# How to Use Index Feature of News-Letter

In order to aid in catching the items that concern you and to facilitate clipping and filing, a key word in small capitals has been printed on the right of the line above each article. The key words used fit into any system of classification, whether it be a straight alphabetical file, a system of your own devising, the Library of Congress classification or the Dewey system.

Note that you can clip out any article without fear of damaging another article in which you might be interested, since editorial matter printed on the righthand pages is backed by advertising, standing matter or a continuation of the article on the other side.

## Library of Congress Classification

The classification of the Library of Congress has come into common use in the libraries of the country owing to the publication of the Government of the card index of all new books. We print below a list of the subject titles which are most used in the SCIENCE NEWS-LETTER. The full scheme of classification is contained in "Outline Scheme of Classes," issued by the Library of Congress.

## Timely Textbooks

THE WEEKLY SCIENCE NEWS-LETTER is received each week with zest—is looked forward to with interest by the student. The compact, handy form of this small magazine makes it easy to use—it takes up but small space and has many advantages over the bound book. It is illustrated with the doings of men of science TO-DAY—their achievements greet the eye but very shortly after the papers have broadcast their latest discoveries and inventions. Accomplishments that make for world history—that will change many lives and occupations are given to your students months and even years before the interesting facts are printed in book form.

The NEWS-LETTER may be ordered in multiple copies. The regular price of 10 cents per copy (\$5.00 per year) is reduced to 6 cents a copy if ten or more are sent to one address. Orders received between now and January 1—to last until the end of the school year (July 1)—will be \$1.50 (in quantities of 10 or over).
