

PHOTOGRAPHS OF SCIENTISTS

Science Service has a collection of nearly 2,000 photographs of scientists throughout the world. The sixth installment of this list is published below. Although this list has been checked with care, corrections are requested, since a complete catalog will be issued later. Photographs of scientists not listed are desired.

For the convenience of teachers and scientific enthusiasts, these photographs are offered for sale. Any ten photographs (each postcard size $3\frac{1}{8} \times 5\frac{3}{8}$ inches) will be sent postpaid for only \$2.00. Enlargements, 8 x 10 inches, are \$1.00 each postpaid. Postcard pictures are finished only in black and white, but enlargements are offered either in black and white or sepia on buff stock. Please specify which.

Starred (*) photographs can be furnished as \$1.00 enlargements only. Photographs at these prices are sold with the understanding that they are not to be used for publication.

Say you saw it advertised in the SCIENCE NEWS-LETTER

Teachers, Professors, Librarians, Club Leaders:

6c. a Week

(\$1.25 for second semester, February through June; \$3.00
for calendar year)

is the special price of quantity subscriptions (10 or more
to same address) to
SCIENCE NEWS-LETTER
when ordered by colleges, schools, libraries and clubs.

The SCIENCE NEWS-LETTER is a living text-book that will vitalize science study. Each week it will bring to your classes a summary of the organized science knowledge of the world. Every field of science is covered. No book can do it. For the price of ONE text-book you can obtain in the NEWS-LETTER matter that would fill FIVE large books.

During the past four years thousands of copies have been used in science classes throughout the country.

→ Orders must be for ten copies or more to go to one address. ←

(Single subscriptions are \$5.00 a year, 10 cents a week.)

How to Use Key-Word Feature of News-Letter

In order to aid in catching the items that concern you and to facilitate clipping and filing, a key word in small capitals has been printed on the right of the line above each article. The key words used fit into any system of classification, whether it be a straight alphabetical file, a system of your own devising, the Library of Congress classification or the Dewey system.

Note that you can clip out any article without fear of damaging another article in which you might be interested, since editorial matter printed on the righthand pages is backed by advertising, standing matter or a continuation of the article on the other side.

Library of Congress Classification

The classification of the Library of Congress has come into common use in the libraries of the country owing to the publication of the Government of the card index of all new books. We print below a list of the subject titles which are most used in the SCIENCE NEWS-LETTER. The full scheme of classification is contained in "Outline Scheme of Classes," issued by the Library of Congress.
