

Seek Trails that are New Dig Deep into Nature Lore—

Enjoy the special out-of-doors issues of the SCIENCE NEWS-LETTER. The Coordinating Council of Nature Activities joins with us in producing pages of interest to every lover of wood and field and sky. Through these articles you may understand the important variations of the inhabitants of every shadowed brook, every tree top, and the stars that spangle the arching blue overhead.

Our regular features scheduled for June, July and August include:

Animal World Has Mutts and Jeffs.

Nature Ramblings (a weekly nature note by Dr. Frank Thone).

Great Events in the Science of the Past.

Star Charts of Summer Heavens (an explanation of the stars by James Stokley).

Man's Age and Evolution in the Light of New Discoveries (raising the question as to whether ancient man lives in America).

History of Lighting Traced by Science.

Poison Ivy Conquered by Chemicals.

And week by week the most interesting, important and authoritative accounts of the progress of current science in all fields.

Special Introductory Offer—13 weeks for \$1

In order not to miss the array of interesting material, special nature pages included, just clip a dollar bill to this blank, fill in your name and address and mail at our risk.

To SCIENCE SERVICE, 21st and B Sts., Washington, D. C.
