"Cannot be too highly praised."—*Forum*.

"Valued by those who wish to use their mother tongue with accuracy and effectiveness."—*N. Y. Times*.

"It not only defines known words but also supplies just the right words you need for each shade of meaning."

—*World's Work*.

The RIGHT Word is always at your command

in speaking, in writing—if you have this "Treasure House of Words and Knowledge."

You no longer need halt and stumble, groping blindly for the words to accurately express your thoughts.

The full riches of the English language, the illimitable wealth of words from which the ablest writers and most eloquent speakers draw, can be yours always, through

March's Thesaurus Dictionary

The only book in the English language which **defines** the words you know and **finds** and **defines** the words you do not know, or have forgotten.

It is not a study course. You do not have to spend months of preparation before you realize on its value.

It begins to be helpful the minute you receive it and soon becomes so useful that you will agree with one enthusiastic purchaser, who says: "I would not take \$1000 for my copy if I did not know where I could get another."

By its unique patented arrangement of grouping related words, it makes instantly available for you the exact word for any desired shade of meaning or different words to express the same thought without repetition.

For instance, should you desire a word expressing the thought of **love**, you find under the word-grouping **LOVE-HATE** all of the words in the English language expressing the thought of **love**, and in adjoining columns all the words expressing **hate**. **All of these words are listed alphabetically in column form, instantly found, classified under the part of speech to which they belong and each accurately defined so that you can choose the right word for your purpose and know that you are using it correctly.**

In addition, the new Amplified Edition,

recently off press, is full of facts that you need every day. It contains chapters which are complete text books on English grammar, composition, correct use of English, rules of punctuation, references to the vital facts of the Bible, historical and geographical facts, Americana, etc., and a complete section devoted to the only known list of

The Important Words of the Leading Arts and Sciences

prepared by Science Service, Inc., with the aid of specialists in the respective sciences. These words are defined and grouped by the March's Thesaurus method which makes available at once the word you cannot recall. A single reference in this section places before you not only the word sought but all of the related words in that science as well.

To the scientist or the man interested in scientific subjects, the value of this section is beyond computation.

March's Thesaurus Dictionary is invaluable to you in business because it gives you vital facts and develops a more unerring, forceful vocabulary. It is needed in your home because it develops—in children and parents alike—the habits of accuracy of speech and of association of words and facts, habits essential to a successful career.

1462 pages, each 7¼" x 10¼", yet only 2¾" thick because of special thin opaque paper. Bound in Buckram, with Gold Stamped Title.

How to Use Key-Word Feature of News-Letter

In order to aid in catching the items that concern you and to facilitate clipping and filing, a key word in small capitals has been printed on the right of the line above each article. The key words used fit into any system of classification, whether it be a straight alphabetical file, a system of your own devising, the Library of Congress classification or the Dewey system.

Note that you can clip out any article without fear of damaging another article in which you might be interested, since editorial matter printed on the right-hand pages is backed by advertising, standing matter or a continuation of the article on the other side.

Library of Congress Classification

The classification of the Library of Congress has come into common use in the libraries of the country owing to the publication by the Government of the card index of all new books. We print below a list of the subject titles which are most used in the SCIENCE NEWS-LETTER. The full scheme of classification is contained in "Outline Scheme of Classes," issued by the Library of Congress.
