A SCIENCE SERVICE PUBLICATION

These Books TEACH

and are therefore useful to teachers and others who like to know things

★ PSYCHOLOGY

Psychology for the Fighting Man was prepared by a Committee of the National Research Council with the collaboration of Science Service. Over fifty scientists and scientist-writers cooperated to write chapters on fear, morale, camouflage, seeing at night, food, sex, rumor, mobs and panics, to mention a few. It was written for the individual who wants to know his own physical and mental limitations and possibilities. Illustrated with 48 photographs, drawings, charts and graphs. Indexed. 456 pages, 25c.

★ OCEAN LIFE

Science from Shipboard, or What To Do Aboard The Transport, is a book of information on the varied life of the sea. Prepared by nineteen scientist-writers and artists, it gives its knowledge simply and directly on such subjects as wind, waves and weather; whales, porpoises and other smaller fish; on oceanic birds; on time, the calendar and the sun dial; stars, moon, sun and navigation; ships, shore lines and ocean islands. Illustrated with 138 drawings, charts and graphs. Indexed. 268 pages, 25c.

★ ELECTRICITY

Fundamentals of Electricity takes a tough subject and makes it clear, through the writing of Dr. Morton Mott-Smith, with the collaboration of the Science Service staff. The 44 photographs and 41 drawings, the suggested reading and experiments, the questions all combine with the text to make this course of 40 lessons valuable. It is based on an official outline prepared by the War Department for use in pre-induction training, takes up magnetism, static electricity, condensers, volts and amperes, storage batteries, electro-magnetism, electric heat and light, induced currents, electric generators, transformers, induction coils, telephones, current rectifiers and other subjects . . . always stressing the practical application of the knowledge. 126 pages, 25c.

★ LANGUAGES

Four dictionaries, German, French, Spanish, Italian, and a separate Italian Sentence Book have been prepared by Frank Henius for soldiers and civilians who need to learn languages quickly. The efficient soundwriting adopted by the Army is used—the most up-to-date, streamlined, and useful soundwriting known. Languages are easy to learn and easy to teach with the means of this soundwriting. The Dictionaries contain about 12,000 words, written for instance, French to English, English to French. The Italian Sentence Book contains the ordinary phrases and sentences used by the soldier with an added section on Italian grammar. The Italian Sentence Book is 25c; the Dictionaries are 50c each. Pocket-size, easily carried, these books are practical for both students and teachers, as well as for those in combat and occupation areas.

★ MECHANICS

Fundamentals of Mechanics meets the need of the man or woman who has to know *why* and *how*. Its 114 actual photographs and 32 drawings of experiments combine with the clear, concise writing of Dr. Morton Mott-Smith and Marjorie Van de Water of the staff of Science Service to make this course practical. Its 40 chapters are based on an official outline prepared by the War Department for use in pre-induction training. Here you will find basic information on Atoms and Molecules, Inertia, Precision Instruments, the Lever, Speed and Acceleration, Momentum and Recoil, Hydraulic Press, Surface Tension, Work from Heat, the Automobile and other subjects. Each chapter has suggested experiments under *Things to Do*, and test questions under *Do You Know?* Indexed. 177 pages, 25c.

BECAUSE The Infantry Journal publishes authoritative books for the men and women of the armed forces, these selections can be offered to you at these low prices. Please order at least one dollar's worth at a time. Buy them for yourself, or if you want to send some or all of these books to a member of the armed forces as a gift, include his or her name with your order. Books will be sent postage prepaid. **BOOK DIVIDEND COUPONS** for 15% of the value of the order will be sent to you if remittance accompanies order.

The Infantry Journal is the monthly magazine of the U. S. Infantry Association. The Journal comes to more than one hundred thousand U. S. fighters and civilians all over the world. In addition, it ships books to soldiers, sailors and marines wherever they are.

----- PLEASE USE THIS COUPON -----

To THE INFANTRY JOURNAL, 1115 Seventeenth Street, N. W., Washington 6, D. C.

Please send postpaid the books whose titles I have checked at the right, and for which I enclose \$-----
