

WHO is the most unusual person on your

Christmas List?

Wouldn't he (or she) like a gift of twelve packages, one to arrive each month in 1945?

The gift of a Membership to receive THINGS of science is no ordinary gift. It is a gift for someone who has imagination, who cares and dares to look ahead, who wants not only to read about, but to see, handle, and own many objects of science.

In each gift package (a box or bulky envelope) there will be one or more objects of science, and with each object, a museum-style legend card, which will tell at a glance what these things of science are. Included will be the sheets of explanation, that give the interesting detail of discovery, of development, of manufacture, and that tell how to perform interesting experiments with the contents of the package.

Since late in 1940, packages like these have been going forward to members of the THINGS of science group. Glance over this list, then decide whether a membership which brings monthly packages on subjects as widely varied as these, isn't just the thing for that most unusual person on your Christmas Gift list.

Optics	Fiberglas	Prince Rupert's Drops
Synthetic Rubber	Seeds, Medicinal and	Coins
Plastics	Condiment Plants	Insects
Strategic Minerals	Sulfur	Cork
Bread Vitamins	Treated Wood and	Rayon
Fingerprinting	Cloth	Felt

Fern Fossils	and Sheeting	Plastic Pilot Aids

You know one or more who would thank you again and again for such a gift. If you are not yourself a member, you could hint to someone that you'd like it as a gift yourself.

The 1945 THINGS of science will be unusual; every month's package will be a surprise. A Christmas Membership to THINGS of science will bring the 12 units of 1945, plus the December 1944 unit which we will add to your gift with our compliments, to arrive in time for Christmas. We will make out and mail a Christmas card with your name as donor, announcing your gift. Each membership is \$4 a year, postpaid. You will find a handy order coupon below.
