**THE BUS HAS
HELPED TO PUT
THE MAN
IN MANPOWER**

A MAN doesn't become manpower until he punches in at the factory gate. Today it doesn't matter much whether he lives one mile from the plant or thirty miles away—as long as there is a bus at hand to take him to work.

The nation's bus industry is bringing manpower to vital war plants from miles around—transporting millions of war workers in safety, day and night, rain or shine.

The bus industry can indeed be

proud of its wartime record in carrying tremendously increased numbers of passengers in spite of shortages of equipment, parts and skilled help.

The war has brought home how important a part gasoline plays in the transportation system of this nation. We, of Ethyl, are glad to have been able to contribute to the improvement of engines and fuels and look forward to continuing cooperation with both manufacturers and operators in the future.

ETHYL CORPORATION, Chrysler Building, New York 17, N. Y.
