## Accurate Model of the HUMAN BRAIN

- For your own reference
- For clear explanation to others

With this three dimensional cut out model of the brain you can visualize the brain and get a clear idea of the parts which make it up. The detail is useful but not cluttered. All principal tracts and areas are clearly delineated. You can locate different cortices or the thalamus, trace the pyramidal tracts, pin point the pituitary or the medulla oblongata. You will be able to follow articles on experimental brain research closer and understand the radiating pathways for cortical discharge. No other three dimensional models of the brain exist anywhere at less than ninety dollars except this remarkably well designed device. Used in Medical Schools throughout the country and university biology classes as a supplement to texts. It has been purchased also by hundreds of private physicians. **Complete, Postpaid \$5.98**

### OUR ROBOT

Machina Speculatrix, the Robot Turtle, is light and touch sensitive. When it is hungry it goes toward light, when it bumps into something it shimmies away from it. It is extraordinary because it has wheels instead of legs, photoelectric cells instead of eyes, electric motors instead of muscles, a set of relay tubes for brains and, though mechanized, is capable of a low level of intelligent thinking. Designed by Dr. Walter Grey Walter ("The Living Brain"), it operates off storage cells. Complete plans and blueprints . . . . . **Postpaid \$5.00**

### NERVE ANALOG

Duplicate the electric basis of Nerve action. Reproduce 18 different functions of the nerve although its circuits contain extremely simple electrical elements. These can be used with different inputs and outputs can be hooked crosswise into series or in parallel. By choosing the frequency of input (end organ stimuli) you can get varying responses. Designed for Psychology and Physiology classes as demonstrators of nerve action and complexities of behavior possible with simple electrical circuits. Blueprints, parts list, wiring diagram . . . . . **Postpaid \$4.00**

## Wrist Radio Weighs 2.5 oz.
