A SCIENCE SERVICE PUBLICATION

JUST PUBLISHED! A monumental volume portraying the entire scope of modern chemistry—the most extensive collection of articles ever published between two covers.

The ENCYCLOPEDIA of CHEMISTRY

Edited by **GEORGE L. CLARK**, University of Illinois, and **G. G. HAWLEY**, Reinhold Book Division. Written from **A to Z** by over 500 outstanding contributors.

EXAMINE IT FREE!

See for yourself how this vast storehouse of up-to-the-minute information can instantly pin-point the authoritative answers you so frequently need—and in every pertinent field!

Here is a small sample of the vast number and kinds of articles you'll find:

Abrasives	Instrumentation
Acetylene	Ion Exchange
Acrylic Resins	Isotopes
Activity	Kinetics, Chemical
Additives	Laundering
Adhesives	Leather
Adsorption	Le Blanc
Agricultural Chemistry	Little, Arthur D.
Air Pollution	Lubricating Greases
Alkaloids	Market Research, Chemical
Allergy	Mercaptans
American Chemical Society	Microbiology
American Petroleum	Milk & Milk Products
Institute	Molality
Amino Acids	Nerve Gases
Ammonia	Nomography
Antibiotics	Noxious Gases
Antibodies	Nucleic Acids
Aromatic Compounds	Nutrition
Arrhenius	Optical Rotation
Asymmetry	Osmosis
Banting	Oxo Process
Batteries	Packaging
Bile Acids	Paints
Blood	Paper
Brewing	Particle Accelerators
Buffers	Patents
Carbohydrates	Polypeptides
Carbon Black	Peroxide
Carbon Monoxide	Pesticides
Carcinogenic Hydrocarbons	Petrochemicals
Casein	Phase Rule
Catalysis	Phosphors
Cereal Chemistry	Photosynthesis
Chelation	Pigments
Chemical Dating	Pilot Plants
Chemical Nomenclature	Plant Location
Chemical Research	Plutonium
Chemical Economics	Polyester Resins
Chlorophyll	Proteins
Chromatography	Protective Coatings
Coefficients	Pyroles
Combustion	Radioactivity
Corrosion	Raman Effect
Crystals	Raoult
Debye-Huckel Theory	Reactions, types of
Deterioration	Refractories
Dielectric Materials	Richter
Distillation	Safety Practice
Dyes	Sampling
Economic Evaluation	Scheele
Elastomers	Seeds
Electrodeposition	Semiconductors
Entropy	Silicone Resins
Essential Oils	Snake Venoms
Exposure Testing	Soaps, Metallic
Extinguishing Agents	Solvol
Fertilizers	Stanford Research Institute
Fats	Steroids
Fibers, Synthetic	Steric Hindrance
Fission, Nuclear	Structural Antagonism
Foams	Surface Tension
Foods	Surfactants
Free Radicals	Temperature Scales
Fuels	Thermodynamics
Fumigants	Toxicity
Geochemistry	Tobacco
Glycols	Trade-Marks
Grignard Reactions	Transference Numbers
Hardness	Uranium
Heat Transfer	Vacuum Techniques
Hormones, Steroid	Vegetable Oils
Hydrogenation	Vinyl Resins
Hydrolysis	Wastes, Industrial
Impurities	Water Conditioning
Industrial Chemistry	Wood Waxes
Inorganic Chemistry	Weizmann
Infrared Spectrometry	Zirconium

The first complete, modern, one-volume encyclopedia centered around the subject of chemistry written by a host of eminent authorities, and including 20 different sciences that border on chemistry.

You can eliminate hours of guessing, searching, and inquiring with this amazingly handy single volume. Here you have the entire scope of modern chemical information always at your fingertips.

From "Abrasives" to "Zirconium" are 1,000 pages of remarkably condensed, authoritative, and clearly presented information designed for the needs of chemists, engineers, and scientific workers in all fields.

All branches of chemistry—pure and applied, chemical engineering, and pertinent related fields—are covered carefully and concisely. A wealth of information is presented for those who seek to understand current scientific developments such as atomic power, automatic control, electron tubes, radioactivity, new elements, plastics, antibiotics, amino acids, allergy, air pollution, safety, packaging, and hundreds of similar topics. Every industry which manufactures any type of material or product will benefit from this all-inclusive work covering such subjects as acids, additives, aerosols, anti-freeze agents, asbestos, asphalt, metals, cement, dyes, fertilizers, pesticides, oils, fat, and waxes, fuels, petro-chemicals, trademarks, patents, and countless others.

Editing and Authorship Guarantee Highest Standards of Excellence

GEORGE L. CLARK, Editor-in-Chief of the *Encyclopedia*, is Research Professor of Analytical Chemistry, University of Illinois. He is author of the outstanding book "Applied X-Rays," the 4th edition of which was recently published. He is the founder of the Electron Microscopy Society of America and editor of physical chemistry terms in the Merriam-Webster New International Dictionary. GESSNER G. HAWLEY, who has been Executive Editor of Reinhold Book Division for many years is Managing Editor of the *Encyclopedia*. WILLIAM A. HAMOR, Director of Research, Mellon Institute, is Advisory Editor. For some years, he has been Editor of the world-famous American Chemical Society Monograph Series.

Of the more than 500 top contributors from American science and industry, almost every one is an internationally recognized authority and also a capable writer. And through the editors' determined efforts, complete coverage of the vast subject has been attained.

Will your next vacation really be "Something to Remember"?

Let **NORMAN FORD**
show you how to have a
different vacation and
save up to 50% of what
you've been accustomed
to spending

Norman Ford has made it his business to know America. His famous *WHERE TO RETIRE ON A SMALL INCOME* has helped a half-million Americans find an easier life on the money they've got. *WHERE TO VACATION ON A SHOESTRING* proves that—if you can afford a vacation at all—you can do more and see more than you ever thought possible.

For a different, exciting low cost vacation, get your ideas from these guides:

"WHERE TO VACATION ON A SHOESTRING," by Norman Ford. In this big book you learn about low cost summer paradises, farm vacations, vacations on far-off islands, on boats drifting down lazy streams. About vacations at world-famous beaches, under palm trees, in government subsidized vacation resorts, in Indian country, along rugged coastlines, on ships and by rail. About dude ranches you can afford, what to see, do, and how to save at national parks and in the cities most Americans want to visit. About low cost sailing ship cruises, houseboat vacations in the North Woods, fantastically low cost mountain vacations, the unknown vacation wonderlands almost at your front door.

Of course Norman Ford knows where to get real vacation bargains from Maine to California and in Canada, Mexico, etc. At no time does he ask you to spend a lot of money to enjoy yourself, no matter how really different and exciting is the vacation you choose through his experienced advice. Always, he tells you the many things you can do within your budget and how to get more for your money. If you travel by car, he shows how most auto parties can save \$6 and \$7 a day.

You can't help but learn something just meant for you. Yet *Where to Vacation on a Shoestring* costs only \$1.

"TRAVEL ROUTES 'ROUND THE WORLD," With this book you can stop saying that travel is too expensive. Passenger-carrying freighters do offer you a way to see the world for as little as you'd spend at a resort. And what accommodations you get—large rooms with beds (not bunks), probably a private bath, lots of good food, plenty of relaxation as your ship speeds from port to port.

Trips to Rio and Buenos Aires, to the West Indies, between California and New York, out to Hawaii—trips to almost everywhere—are within your means.

There are round the world voyages and shorter trips too. Fast, uncrowded voyages to England, France, the Mediterranean; two or three week vacations to the West Indies or down the Pacific Coast.

This book names the lines, tells where they go, how much they charge, briefly describes accommodations. It includes practically every passenger carrying service starting from or going to New York, Canada, New Orleans, the Pacific Coast, England, France, Scandinavia, the Mediterranean, Africa, the Near East, the Indies, Australia, the South Seas, Japan, Hawaii, etc. It's yours for \$1.

"LANDS IN THE SUN," Where to spend a while—even retire—in Mexico, the West Indies, and other lands to the south, where the dollar buys so much more. Not sold but given free with each order for both books above.

To get these books, fill in this coupon:

**HARIAN Publications, 182 Spring St.,
Greenlawn (Long Island), New York**

I have enclosed \$..... (cash, check or money order). Please send me the books checked below.

- Where to Vacation on a Shoestring—\$1.00
- Travel Routes Around the World—\$1.00
- Special offer: Send Me Both Books Plus My Free Copy of "Lands in the Sun"—\$2.00

You will refund my money if I am not satisfied.

Unfortunately, it's not easy to shop around for real travel values—for many of the best low cost vacations never are advertised. Yet the secret of guaranteeing a new, different and exciting vacation is to learn the hundreds of things you can do and the places you can visit on the money you want to spend.

I've spent months doing nothing else than travel around to find the best vacation bargains in all North America. I have found low cost summer paradises; have learned scores of ways to save and can tell you about the vacation-out-of-the-ordinary that is just what you've been looking for.

If you are interested in visiting America's outstanding cities for less than \$10 a day . . . in spending your vacation on a real operating dude ranch for only a few dollars a day instead of \$20 . . . if you and your family need a vacation and have only \$35 a week to spend . . . if you seek Parisian atmosphere without traveling all the way to Europe . . . I will show you that it is cheaper to vacation than to live at home.

VISIT PARIS IN AMERICA! Steeped in foreign atmosphere . . . not far from home . . . not expensive, the exact spot you'd "go for" if you knew it existed: that's the French island of St. Pierre, off the coast of Canada and just a few air hours from the heavily populated sections of the U. S. A charming summer resort, with authentic French atmosphere . . . a long sandy beach, and the stores feature smart French perfumes, handbags, gloves, wine, etc.—all direct from Paris and at prices as cheap as in the shops of the Parisian boulevards. At St. Pierre, a quiet, restful vacation with French cooking, memory-making atmosphere can be yours for only \$35 a week.

Here is a sampling of different vacations

Dude Ranch at \$45 a week. Tucked away in the Alberta hills are the lowest cost real dude ranches in America. For \$42-\$50 a week you get all the riding you want, ranch wagon camp trips, square dancing, and mouth watering home cooking with 3 inch steaks which you can cut with a fork.

Luxury Hotels in Florida, Cuba, Bahamas for \$3.50 a day. Summer brings down the rates in the leading hotels here. And it's no warmer than New York, Boston, or Chicago. Thousands now spend their summer vacations in Florida, Cuba, and the Bahamas, yet spend no more than at an ordinary resort up north.

A week's cruise into the Canadian North Woods for \$70. From Canadian towns easily reached by car, steamers sail weekly along rivers and lakes into the roadless North Woods of fur trappers and red coated Mounties. Chances here to leave the ship and canoe far north into the deep Indian forests.

Acapu'co for only \$21 round trip from U. S. border. Vacation in summer at Mezico's exotic tropical beach resort for only \$37.50 a full week, all expenses included.

Grand Canyon on \$4 a day. Camp out as half a million American families do. Housekeeping tents also available at this and other national parks. (Vacation at the famous parks for less than you'd spend at home.)

Round the world for \$633. Minimum fare from London (reached for \$175 from N. Y.). From U. S. round the world cruises on luxury type freighters from \$250-\$300 a month.

Rail to New York or California via Florida and Canada. Only \$8 more than the usual cross-country rail ticket entitles you to visit not only two coasts but also Jacksonville, Banff or Jasper Park and Montreal.

Your own private beach for only \$25 a week at Grenada. The tropical island in the West Indies which natives say is as colorful as a rainbow. Sea bathing, sailing, fishing, golf, and tennis yours for only \$3-\$5 a day—total expenses, including meals and house.
