A SCIENCE SERVICE PUBLICATION

COSMOTRON

- MINIATURE ATOM SMASHER
- PRODUCES 75,000 VOLTS
- ABSOLUTELY SAFE

In no sense of the word a toy or a gadget. The COSMOTRON is a scientific instrument capable of producing 75,000 volts—makes sparks up to 2" long—yet is absolutely safe because the current is infinitesimal. The science teacher—science lover—or hobbyist can perform experiments to astound students—friends—family. Makes smoke disappear—defy gravity—turns propellers at a distance—transforms atomic energy into light—makes artificial lightning—smashes atoms—demonstrates ionic space ship drive—and many other experiments. Constructed of the finest materials. Will do exactly—for instruction purposes—what generators that cost 3 to 10 times more will do. The perfect device to teach the secrets of atomic physics and electricity. Will hold an audience spell-bound as it performs trick after amazing trick. Includes an experiment kit and illustrated experiment manual. Manual explains the "how" and "why." You will invent many new experiments of your own. A fine research tool that will give years of beneficial service to the institution or individual who owns one. In kit form or assembled.

Kit Form\$14.95
Assembled\$19.95

900X "MICROBE HUNTER"

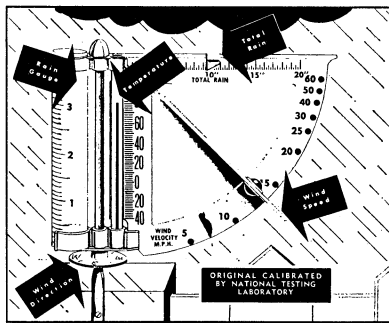

- The only Microscope in its class featuring GRADE A optical
- Power Range 25X, 50X, 75X, 100X, 150X, 200X, 300X, 400X, 600X, 900X
- Full Range Fine Adjustment
- Safety Stop on Coarse Adjustment

This instrument—made to our rigid design specifications—has wide usage in schools, laboratories and law enforcement agencies. All of the most needed features have been incorporated to meet the requirements for diversified microstudies. Highly recommended for serious hobbyist desiring exceptional quality at modest cost. Power range from 25X to 900X in 12 possible combinations. Gearing rack and pinion coarse focusing. Micro-motion fine focusing of full range—12 complete revolutions. Safety stop prevents over rise. 36mm dual surface (plano/concave) mirror. Fixed square stage. 70mm X 80mm. Rotating 5-hole, disc diaphragm. Three Huygenian eyepieces of 5X, 10X and 15X. Four achromatic objectives of 5X, 10X, 40X and 60X. Oversize base insures stability and protects objectives. Body tilts through 60°—perfectly balanced at any angle. Complete with upright, wooden carrying case.

F-338—List \$69.95.....Net \$39.95
(Add \$1.00 for postage and handling)

Portable WEATHER STATION

This all plastic unit tells wind speed, wind direction, temperature, rainfall, and total rain... Easily mounted on clothesline, fence, porch, outside window or garage. A complete, pocket-sized weather station, only \$4.98 ppd.

IT FLASH FREEZES MOTION!

Exciting experiences in research and photography are possible with the new Geniac® STROBOSCOPE.

Designed to flash a brilliant neon light at precisely controlled speeds from one flash per second to 250 f.p.s. The STROBOSCOPE actually makes motion freeze before your eyes when its flicker frequency equals that of the vibrating object.

Used together with fast film and fast lenses, the Geniac® STROBOSCOPE creates multiple images on one film, and thus is useful in ballistics studies.

Essential for the research lab, photographic amateur, school or serviceman who wants to discover the causes of erratic vibration or to measure frequency accurately. The STROBOSCOPE can also be used in the laboratory through a microscope to observe moving cilia, vacuoles, etc.

Versatile, exciting, low-priced and accurate, the Geniac® STROBOSCOPE is available in kit form and assembled, complete with instructions and experiment manual.

Kit\$19.95
Assembled\$24.95

(Add 80¢ for postage & handling; in New York City, add 3% NYC sales tax)

Can you think faster than this machine?

Control Panel of GENIAC® set up to do a problem in check value research.

Be careful before you answer. GENIAC®, the first electrical brain construction kit, is equipped to play tic-tac-toe, cipher and encipher codes, convert from binary to decimal, reason in syllogisms, as well as add, subtract, multiply and divide. Specific problems in a variety of fields—actuarial, policy claim settlement, physics, etc., can be set up and solved with the components. Connections are solderless and are completely explained with templates in the manual. This covers 125 circuits and shows how new ones can be designed.

You will find building and using GENIACS a wonderful experience; one kit user wrote us: "this kit has opened up a new world of thinking to me." You actually see how computing, problem solving, and game play (Tic-tac-toe, nim, etc.) can be analyzed with Boolean Algebra and the algebraic solutions transformed directly into current diagrams. You create from over 400 specially designed and manufactured components a machine that solves problems faster than you can express them.

SEND for your GENIAC® kit now. Only \$19.95 with over four hundred components and parts, fully illustrated manual and wiring diagrams. We guarantee that if you do not want to keep GENIAC after one week, return it for full refund plus shipping costs. \$19.95 (East of Mississippi); \$21.95 (Outside the United States); \$20.95 (Elsewhere in United States)

A 66-inch Slide-rule for your pocket, \$19.95

Slide Rule Open

The GENIAC® Calculator carries 66-inch spiral scales yet measures only ten inches fully extended and six inches when closed. Four to five figure accuracy can be relied on. It is indispensable to the scientist, research worker and student. Administrative staff and business men will find it of tremendous value for a host of estimating and checking calculations.

The GENIAC® Slide Rule solves multiplication, division, percentage calculation and gives 5 place logarithms.

You may use it for 30 days and if you are not satisfied repack and mail it back.

What our users say:

"It does all you claim—four or five figure accuracy without eye-strain or magnifiers. Half an hour's study is ample for its use."

"I use the GENIAC Calculator for all my slide rule work and need the extra digit which normal slide rules cannot give. I had to get one of my customers a GENIAC Slide Rule last month, after using mine in his office." E. & G. H. Textile Manufacturers.
