Nuclear Ship Propulsion Symposium in Italy

► THE RUSSIAN 16,000-ton nuclear ice-breaker "Lenin" is now active in the Arctic, and the United States nuclear cargo passenger ship "Savannah" soon will be in operation.

Plans for nuclear ships in other countries are going ahead rapidly because of practical advantages such as extended range without refueling.

Safety questions, a major consideration, prompted an international symposium on Nuclear Ship Propulsion With Special Reference to Nuclear Safety, sponsored by the International Atomic Energy Agency.

The symposium was held Nov. 14 to 18 in Sicily, with 12 countries participating.

ENGINEERING

Army Develops "Laughing Gas" Unit

► A PORTABLE "LAUGHING GAS" generator for use by medical units under combat conditions has been developed by the U.S. Army Engineer Research and Development Laboratories. It is capable of producing 40 pounds an hour of liquid nitrous oxide, an anesthetic agent commonly called "laughing gas."

The comparatively lightweight plant will enable the Army to minimize, if not eliminate, the necessity of shipping returnable cylinders of compressed gas to and from various theaters of operation. It consists of two skid-mounted units that can be carried by truck, train or plane.

TECHNOLOGY

Ship to Shore Hose Unloads Tanker

► SHIP-TO-SHORE TRANSFER of fuels through a continuous, floating, spliceless hose is being inaugurated in the Philippines. An inter-island tanker is making the first commercial application of the new hose.

The tanker, Caltex Luzon, owned by Caltex (Philippines) Inc., can anchor off shore and unload through a 500-foot continuous length of four-inch floating hose. Then the hose can be reeled aboard ship.

STUDENTS, TEACHERS, HOBBYISTS... Now, 42 fascinating experiments with the

New BLACK LIGHT MAGIC-GLO Kit

Study and demonstrate the phenomenon of fluorescence. Experiments in fluorochromy, mineralogy, scientific research, electronics, crime detection, art, medicine and stamp collecting.

Observe fluorescence of hundreds of substances from the field, in your home and at school.

You receive an ultra violet black light lamp, socket and cord set, 4 bottles invisible fluorescent paint, invisible fluorescent ink, tracer powder and crayon, fluorescent mineral specimens, phosphorogram, fluorescent dye, fluorescent elastic braid, and a box of experiment materials, pen & brushes. PLUS a 48 page illustrated manual "The Story of Black Light—the Unseen World Around Us" with 42 experiments in ultra violet fluorescence and phosphorescence. Black light guaranteed harmless to eyes and skin.

Send me kits. Send me further details.

STROBOSCOPES

You can now build a quality shutter type stroboscope from our kit of parts at a fraction of the cost of a comparable instrument. The assembled instrument, for which we can supply every component ready to assemble with a screwdriver, possesses the following features: 6000 RPM battery powered motor with minimum life of 1000 operating hours, sensitive speed control rheostat, sharp resolution, wide range of speed. An excellent tool for studying moving machinery. It works equally well with any light source and unlike most types may be used outdoors in bright sunlight. Kit includes full directions for assembly and suggested science projects. Send for descriptive literature on kit and assembled instrument. Dept. SN.

Get UNITRON's FREE Observer's Guide and Catalog on ASTRONOMICAL TELESCOPES

This valuable 38-page book is yours for the asking!

With artificial satellites already launched and space travel almost a reality, astronomy has become today's fastest growing hobby. Exploring the skies with a telescope is a relaxing diversion for father and son alike. UNITRON's handbook contains full-page illustrated articles on astronomy, observing, telescopes and accessories. It is of interest to both beginners and advanced amateurs.

Contents include—

- Observing the sun, moon, planets and wonders of the sky
- Constellation map
- Hints for observers
- Glossary of telescope terms
- How to choose a telescope
- Amateur clubs and research programs

For Your Office Desk

Mysterious Little Black Box S-l-o-w-l-y A Pale Hand Emerges...!

This little black box just sits there—quiet, sinister, waiting for you or your visitor to throw the switch on. Then, suddenly it comes to life, with a whirl of power—twitching and jumping as if a demented genie were locked inside. Slo-o-o-wly the lid rises. From beneath emerges a pale, clutching hand. The hand grabs the switch, pushes it to "off" quickly disappears back in the box. The lid slams shut. Once again, all is quiet. All, except your shaken friends, many of whom will immediately take the pledge! Be first to own it! Send now. Ideal also for the bar.

Complete with batteries, only \$4.98 plus 25¢ for postage and handling. Guaranteed to unnerve or money back.

Enclose remittance. Available by mail only from SPENCER GIFTS CS-35 Spencer Bldg., Atlantic City, N. J.
