Windproof - Waterproof  
Smokeless - Non-Toxic

## COMBINATION HEATER - STOVE

**HEAT-PAL** produces as much heat as you want almost INSTANTLY—doubles as a top-quality cook stove. By adjusting the handy outside volume control you get complete range from low-low to intense high heat. Control slides out of sight when not in use. Eleven inches high, 9 inches diameter. Requires no vents.

**HEAT-PAL** is a scientifically-designed sturdy steel and aluminum unit—a product of European precision engineering. Guaranteed to give a full lifetime of service with perfect safety. Steel fuel container is crammed full of non-inflammable absorbent that "soaks up" alcohol, then releases it as desired for heating or cooking in a series of "gas-like" flames.

Steel body has red lacquered finish with upper portion made of heavy-duty spun aluminum. Special vents release maximum heat. For cooking you get special steel grille adjustable for height and different size pots and pans.

Uses inexpensive denatured alcohol (or lacquer-thinner). Gives up to 20 hours of heat with 1 1/2 pints of fuel. Can be used anywhere—even in boats, on dry grass, in tents, cabins, even in child's bedroom!
