A SCIENCE SERVICE PUBLICATION

Are you keeping abreast of modern management techniques?

All 3 of these Management Manuals are now available free of charge

in executive desk-case . . . for new subscribers to **Nation's Business**

THE THREE MANUALS shown here contain the cream of NATION'S BUSINESS's advice on everyday management problems. These articles are the result of lessons learned the hard way by topnotch executives — of successful experiments in increasing efficiency by best-managed corporations — of work-tested discoveries by industrial psychologists and management consultants. This 3-volume library is not for sale — at any price. But new subscribers to NATION'S BUSINESS may have the complete boxed set free of charge.

NATION'S BUSINESS is the oldest and most widely read publication in the business field. It is published by the United States Chamber of Commerce — but 88% of NATION'S BUSINESS circulation extends beyond Chamber membership. Each monthly issue is very much like a four-part management seminar . . .

1. POLITICAL AND ECONOMIC TRENDS AFFECTING BUSINESS. Veteran Washington observers give you their seasoned judgments on the soundness of today's dollar — shifts in Washington's liberal-conservative balance of power — ways to reduce government waste . . . what unions want next. A top tax expert analyzes the government's growing concern over high expense accounts. Chamber of Commerce staff analysts summarize the outlook for Agriculture — Construction — Credit and Finance — Distribution — Foreign Trade — Government Spending — Labor — Natural Resources — Taxation — Transportation — all from the businessman's point of view.

2. PROBLEMS OF MODERN MANAGEMENT. How do you spot and develop potential leaders? . . . delegate authority without abdication responsibility? . . . inspire enthusiasm and loyalty among employees? . . .

Here management consultants give you the benefit of their years of experience. Professors of business administration, applied psychology and industrial research in leading universities report to you on new findings. And executive-readers themselves share with you their discoveries in good management.

3. THE BUSINESSMAN AS CITIZEN AND VOTER. When the businessman speaks up in his club, civic group or trade association, or writes to his congressman, he's got to

know what he's talking about. NATION'S BUSINESS provides thorough briefing in the issues most likely to concern you, such as the difference between fundamentals and frills in school construction . . . whether medical care programs increase in cost as they are removed from local supervision . . . how minimum wage laws can boomerang.

4. EXECUTIVE SELF-IMPROVEMENT. Even men who have already "arrived" know they can't afford to stop improving themselves. So NATION'S BUSINESS tells you how to become a better listener . . . run more effective meetings . . . make figures work for you . . . put your ideas over . . . make sound decisions . . . write clearly and persuasively . . . live with job pressures and "promotion anxiety."

NATION'S BUSINESS is not sold on newsstands. It is available only by subscription to readers interested in business management. For years it was not obtainable except by a 3-year subscription. Now, because of the growing need for the kind of service it offers, this introductory subscription plan has been developed.

The coupon below will bring you both the complimentary 3-volume set, *The Three Steps to More Skillful Management*, in executive desk-case, and the next 12 monthly issues of NATION'S BUSINESS for only \$6.75. Payment need not be sent until later. However only a limited quantity of the 3-volume sets are available, so it is advisable to respond at once.
