COLLECTING ANTIQUE JEWELLERY

By MONA CURRAN

"This book is intended for anyone who wishes to start collecting antique jewelry. It is a compendium of interesting information. The author tackles some of the basic questions, such as where to look for antique jewelry, how much it should cost and how to identify various periods. The book has been written with the small collector in mind and the emphasis, as the author puts it, 'is on the attainable rather than on the rare avis.'"—*The Antiques Dealer*.

THE STORY OF THE GEMS

By HERBERT P. WHITLOCK, Curator of Minerals and Gems, American Museum of Natural History

"The best popular book on gems we have seen. . . . Combines in happy fashion the complete mineralogical background of precious and semi-precious stones with enough of the fascinating history of gems to make the book much more than a manual of cuttable stones. There is . . . an opening chapter on the cutting of stones, and very fine illustrations of cut gems, some in color, and of carved jade and other precious stones. An excellent book."—*The Saturday Review*.

Through the use of a few fundamental principles, practically all shots are made simpler to play—shots from the rough, from bunkers and traps, from difficult uphill and downhill lies, etc. Short cut to low-score golf.
