## THE MIND

Explore THE MIND for 10 days as a guest of the  
**LIFE** Science Library

In ancient rite, Mexican priestess prepares "magic mushrooms" called divine because they produce ecstatic visions.

Among the other volumes in the  
**LIFE** Science Library:

Ten billion "thought cells" are helping you to read this page. And, as your mind yields up its mysteries to science, those cells—which manufacture thoughts, dreams, sensations and feelings—are being tracked down. Those which generate damaging emotions and behavior are submitting to chemical control. Those which aid learning are being multiplied in their efficiency. The day of the super-mind may be dawning.

All the new facts and exciting implications in this field are presented in an extraordinary volume, **THE MIND**, prepared for the general reader by the Editors of the LIFE Science Library.

In **THE MIND** you'll see revolutionary teaching machines. You'll find intelligence tests to sample and actually see the world the insane inhabit (through the medium of their fantastic paintings—reproduced in stark color.) You'll gain understanding from the brilliant photo-essay on the life and works of Sigmund Freud. You'll learn about "mind changing" drugs and be amazed at the incredible teamwork of body and spirit required in the making of music.

This conquest of inner space, the mind, is even more exciting than our adventures in outer space. In the foreseeable future, we will be able to increase the mind's powers and correct its errors with scientific certainty.

To discover the scope of these findings, why not borrow a copy of **THE MIND**, without obligation? Let this excursion into self knowledge be your introduction to the LIFE Science Library. Prepared with a unique combination of authority, clarity, and visual drama, **THE MIND** is typical of this exciting series designed to *simplify, unify, organize and dramatize* the whole fascinating world of science. Even if your knowledge of psychology extends scarcely beyond your ability to spell the word, you'll be caught up in a world of wonders.
