

INDUSTRIAL Repairing PEN

An amazing new maintenance tool has burst upon the industrial scene with the kind of impact only possible with the truly new and different. This new tool is the BONDING PEN! We like to think of it in the same class as the ball point pen that made history twenty years ago. The BONDING PEN is a handy, pocket dispenser containing an industrial bonding glue which is so fantastically easy to use that nobody will ever stick anything together any other way again! The glue itself is a fine quality product, entirely safe, harmless to inhale, and it dries clear. The PEN is the innovation. Just squeeze it. Out squirts a milky fluid that repairs just about anything . . . china, figurines, tile, leather, upholstery, furniture (any wood), toys, books; you can fill cracks with this fluid, glue stones, labels . . . anything of paper. Artists find quicker than rubber cement (why hunt for the jar?? Much neater than tape or string for any package. Special industrial carton price . . . 24 BONDING PENS . . . \$14.95 ppd.
