

MILITARY RANGEFINDER

Now Available to Public

\$18.50
plus \$1 p&h

Just look into the Fedco Range Finder. Sight the distant object. Twist a dial. Read the distance. Remarkably fast and easy! With the Fedco Range Finder there is nothing to measure . . . nothing to compare. You don't have to know the height of ANYTHING. An intricate trigonometry problem is worked for you automatically, instantly in the Fedco "brain" and the distance shows on a dial. The Navy, the Army and the Marine Corps HAD to have a range finder that was quick. The Fedco is this rangefinder. We are fortunate to be able to bring this precision optical instrument to you. It is minutely accurate and light in weight.

(5-power telescope eyepiece for far distant viewing and leather holster \$10 extra.)
