

Are your
10 billion
"thought cells"
confused by
these pictures?

Illusion—the mind insists on seeing these concentric circles as a spiral.

Goblet or profiles? Which do you see?
THE MIND features many interesting tests.

From chemical control of emotions to astonishing new ways of learning

Explore THE MIND for 10 days as a guest of the **LIFE** Science Library

Ten billion "thought cells" are helping you to read this page. And, as your mind yields up its mysteries to science, those cells—which manufacture thoughts, dreams, sensations and feelings—have been tracked down. Those which generate damaging emotions and behavior are submitting to chemical control. Those which aid learning are being multiplied in their efficiency. The day of the super-mind may be dawning.

All the new facts and exciting implications in this field are presented in an extraordinary volume, THE MIND, prepared for the general reader by the Editors of the LIFE Science Library.

In THE MIND you'll see revolutionary teaching machines that assail all five senses at once—you'll find intelligence tests to sample and you'll learn how they're constructed—you'll see the world the insane inhabit through the medium of their fantastic paintings—reproduced in stark color—you'll learn about "mind changing" drugs—and you'll be amazed at the incredible teamwork of body and spirit required in the making of music.

This conquest of inner space, the mind, is even more exciting than our adventures in outer space. To discover the scope of these findings, why not borrow a copy of THE MIND, without obligation? Let this excursion into self knowledge be your introduction to the LIFE Science Library. Prepared with a unique combination of authority, clarity, and visual drama. THE MIND is typical of

this exciting series designed to *simplify, unify, organize and dramatize* the world of science. Even if your knowledge of psychology extends scarcely beyond your ability to spell the word, you'll be caught up in a world of wonders.

In THE MIND, you'll learn about physical and chemical possibilities which make standard psychiatry seem pale. Chemistry is breaking new ground every day. It has already largely replaced shock treatment for the disturbed, and has made some forms of brain surgery, such as prefrontal lobotomy, a thing of the past.

EXAMINE IT FREE

These few words and pictures simply can't do justice to this achievement. That's why we want you to borrow a copy without obligation for 10 days. Then return it if you wish. Or keep it for less than you'd expect to pay for such a lavish book. In either case be sure your children see the book. This series holds a special fascination for people of all ages. Thanks to TIME-LIFE's vast facilities and large print orders, you pay only \$3.95 (plus shipping and handling). Then you will be entitled to examine another volume free every two months. But you make no commitments, promise to buy nothing. For free examination of THE MIND, simply mail the coupon below or write TIME-LIFE BOOKS, Dept. 4515, TIME & LIFE BUILDING, CHICAGO, ILLINOIS 60611.

More than 1,225,000 families have already ordered volumes from the Life Science Library

Size:
8½" x 11"
200 pages
35,000 words
Hundreds of illustrations.

Please enroll me as a subscriber to the LIFE SCIENCE LIBRARY and send me Volume I (THE MIND) for a 10-day Trial Examination. If, at the end of that time, I decide not to continue the series, I will return the book, canceling my subscription. If I keep the book, I will pay \$3.95 (plus shipping and handling). I understand that future volumes will be issued on approval at two-month intervals, at the same price of \$3.95. The 10-day Free Examination privilege applies to all volumes in the LIBRARY, and I may cancel my subscription at any time.
