Stop Saying That Travel Is too Expensive

Passenger-carrying **FREIGHTERS**
are the secret of low cost travel

For no more than you'd spend at a resort, you can take that trip you've always talked about: to the West Indies, Europe, the Mediterranean, around the world. In fact trips to almost everywhere are within your means.

And what accommodations you get: large rooms with beds (not bunks), probably a private bath, lots of good food and plenty of relaxation as you speed from port to port.

Depending upon how you want to go, a round-the-world trip can show you every continent on earth; yours for as little as \$250-\$300 a month. And there are shorter trips. Fast, uncrowded voyages to England, France, the Mediterranean; two or three week vacations up and down the Pacific Coast or elsewhere. Name the port and the chances are you will find it listed in **TRAVEL ROUTES AROUND THE WORLD**, the world's original and most complete guide to passenger-carrying freighters.

This is the book that names the lines, tells where they go, how much they charge, briefly describes accommodations. Hundreds of thousands of travelers all over the world swear by it. During the 33 years in which it's been published, hundreds of travel writers and travel editors have said "To learn how to travel for as little as you'd spend at a resort, get **Travel Routes Around the World**."

It's yours for just \$1, and the big new 108-page edition includes practically every passenger-carrying service starting from or going to New York, Canada, New Orleans, the Pacific Coast, Mexico, South America, England, France, the Mediterranean, Africa, the Indies, Australia, the South Seas, Japan, Hawaii, etc. There's a whole section called **HOW TO SEE THE WORLD AT LOW COST**.

A big \$1 worth, especially as it can open the way to more travel than you ever thought possible. For your copy, simply fill out coupon.

What to See in ALL AMERICA

—in the U.S.A., Canada, and Mexico
and all the way to the Panama Canal

This 100,000 word book helps you explore every sight-filled corner in all America. From Alaska to Florida, from Labrador to California, from the Mexican border to the Panama Canal, it shows you all that's outstanding in the U.S.A., Canada, and all the other countries on our entire continent—countries which you can reach more easily than you probably thought.

Whether you drive or would rather leave your car behind, it details the byways which reveal so much more of America and get you to interesting places most people never see. It makes sure you always know exactly where to go, what to see.

If your eyes are on Maine or Texas; on Florida or Arizona or California; on Niagara Falls or the Grand Canyon; on Yellowstone or Yosemite; if you want to visit New York City or Washington, Chicago or Los Angeles, this book shows you the most interesting ways to get there from your home and it helps you see all of them with knowledge and understanding. If you want to get to out-of-the-way places, it shows you where to find the Eskimo country, Hudson Bay posts, etc. You can drive most of the way, yet where the roads stop, it helps you continue by ship and rail to still more unusual country.

For trips below the border, it shows the most sight-filled ways to all that makes Mexico so exciting to visit. Or do you want to go on to Guatemala's fabulous Indian country; to El Salvador, Honduras, Nicaragua, Costa Rica, Panama? They're yours by car, or you can go by low cost scenic motor coach or rail.

To see all the grandeur of America as you've probably never before explored your own country and her neighbors, make sure that you have your copy of **What to See in All America**. One hundred thousand words long, yet it costs only \$2. Why not get your copy now?

ALL ABOUT ARIZONA

—the healthful state, where it's great to live and vacation

Just as a road map shows you how to reach your destination, Thomas B. Lesure's big book, **All About Arizona**, the healthful state, leads you to whatever you want in this fast growing state of sun and scenic wonderlands.

What do you want to know about Arizona?

Where's the best place to retire at low cost? Where are summers cool? Winters, sunny most of the time? Where are the best areas for a job or a business of your own? For a home? What must a newcomer watch out for when buying land . . . or a home? How high are taxes? Is it true that living costs are less than in the East? What about salaries . . . schools for my children . . . my health?

Or do you want to tour this Grand Canyon State? What's the best way to see Arizona by car (or otherwise)? What is really worth seeing along the roads and down interesting side roads? Or in the cities, the national parks and the other four-star sights? What are those world-famous but relatively unknown four-star sights overshadowed by spectacular Grand Canyon? What is really the best way to see the Grand Canyon? The Indian reservations? The other Canyons? Which are the best places to eat and stay along the way?

What are the sure ways to cut travel costs in this big state?

Filled with facts, over a hundred thousand words in length, **All About Arizona**, the healthful state, almost brings Arizona to your door, answering these and a hundred other questions and giving you a richer, better picture of Arizona than many people have after living there for years.

To know all you should about Arizona before you go for a home, a job, a business of your own, retirement in the sun, or a vacation you'll always remember, read **All About Arizona**, the healthful state. Price only \$2.

WHERE WILL YOU GO IN FLORIDA?

FLORIDA needn't be expensive—not if you know just where to go for whatever you seek in Florida. And if there's any man who can give you the facts you want it's Norman Ford, founder of the world-famous Globetrotters Club. (Yes, Florida is his home whenever he isn't traveling.)

His big book, **Norman Ford's Florida**, tells you, first of all, road by road, mile by mile, everything you'll find in Florida, whether you're on vacation or looking over job, business, real estate, or retirement prospects.

Always he names the hotels, motels, and restaurants where you can stop for the best accommodations and meals at the price you want to pay. For that longer vacation, if you let Norman Ford guide you, you'll find a real "paradise"—just the spot which has everything you want.

Of course, there's much more to this big book.

If You Want a Job or a Home in Florida

NORMAN FORD tells you just where to head. His talks with hundreds of personnel managers, business men, real estate operators, state officials, etc., let him pinpoint the towns you want to know about, if you're going to Florida for a home, a job with a future, or a business of your own. If you've ever wanted to run a tourist court or own an orange grove, he tells you today's inside story of these popular investments.

If You Want to Retire on a Small Income

NORMAN FORD tells you exactly where you can retire now on the money you've got, whether it's a little or a lot. (If you need a part-time or seasonal job to help out your income, he tells you where to pick up extra income.) Because Norman Ford always tells you where life in Florida is pleasantest on a small income, he can help you to take life easy now.

Yes, no matter what you seek in Florida—whether you want to retire, vacation, get a job, buy a home or start a business—Norman Ford's Florida gives you the facts you need to find exactly what you want. Yet this big book with plenty of maps and well over 100,000 words sells for only \$2—only a fraction of the money you'd spend needlessly, if you went to Florida blind.

For your copy, fill out coupon today.

The Island Paradises You Can Drive To

Right here in the U.S. there's many a transplanted Tahiti to which you can drive:

- many a coral island bordered by a powdery beach and shaded by coconut palms.
- many another hideaway set in a sparkling bay, and many another lush island gem for an out-of-the-ordinary vacation or tempting low-cost retirement.

And nearby are others to which you can drive most of the way: incredible Cozumel of Mexico, that country where your dollar buys so much more. Or other off-beat gems in the brilliant Bahamas, some just a \$15 ride from Florida.

In **Utopia Is an Island**, Norman Ford, America's leading travel expert, takes you to those islands which the world has found so attractive in all respects they are known as Island Paradises—the closest thing today to a real Utopia, where you leave behind the noise and the rush of the world for a remarkable vacation or to stay a while or retire, often at fantastically low prices.

You learn about the popular islands—Barbados, Tobago, Jamaica, Puerto Rico, the Virgins; Ibiza, Majorca, Madeira, Capri, the Canaries, plus many an unknown one of equal or greater charm and less expensive. Even in the popular islands Norman Ford shows you sections which the crowds have not discovered. If your eyes are upon Hawaii but you fear it might be too expensive wait until you read about the corners which he has found. See, too, whether you can resist those islands off in another direction where \$50 a week means you and your wife live like kings and queens. Altogether, you learn about 169 Island Paradises, more than fifty of which you can drive to.

Norman Ford is always practical: he tells you how to reach the islands, gives dollar and cents costs for hotels, meals, for renting your own bungalow if you stay a while, for food in the stores, entertainment, etc. If you're interested in a second income, he tells where to start a small hotel or guest house, where to find low cost beachfront, even where to buy your own tropical plantation for only \$20,000.

But let your first introduction to a modern-day Utopia be one of the many island paradises you can drive to. Find yours in **Utopia Is an Island**. Over 100,000 words long, it costs only \$2. Why not send for it now.

If your child is a poor reader

—see how *phonics* can help him

**Try it at our risk—
for two weeks!**

See how your child can learn to read better and spell better in just a few weeks with records that teach him by *phonics*, at home! Mail Free Trial Coupon below.

Would you like to see your child gain as much as a full year's grade in reading in as little as six weeks' time? These are results parents have seen again and again with this simple home-tutoring course in reading.

Mrs. B. J. Smith of Concord, Calif. writes: *"In ten weeks my son advanced from second grade level in reading to the fourth grade level. His spelling improved to the high fourth grade level. We feel fortunate in learning of The Sound Way To Easy Reading."*

Mrs. B. J. Smith is only one of over 80,000 parents who have turned to The Sound Way to Easy Reading for help in the frustrating problem of a child who can't read. And more than 11,000 schools use it.

Teaches with records

Don't think it's all your child's fault if he hasn't learned to read. Many of our brightest children are not able to grasp the "look-and-say" method taught in most schools today. Yet, many educators insist that at least 40% of our children *must* have formal training in *phonics*—that they will never master reading without it!

That is why so many poor readers show remarkable progress with The Sound Way to Easy Reading. It teaches reading by the phonics method (the method by which most parents learned to read years ago). Its phonograph records and charts show your child exactly what to do, so he can teach himself without any help from you.

The records *drill him in the sounds of the 26 letters in the alphabet and their blends*. Once he learns the 123 basic phonics sounds in this course he can read up to 85% of the words

in the English language. It works for children of all ages—in the earliest grades, and even in high school.

Tested and proved

In a pilot study by university psychologists, children gained up to a full year's grade in oral reading skill after only 30 lessons with The Sound Way to Easy Reading.

A semester-long study involving 214 pupils in 4 Chicago schools proved that the classes given The Sound Way to Easy Reading showed marked improvement in reading and spelling over the control groups.

Help your child now

Don't wait for your poor reader to reach high school before coming to his aid. By starting your child on The Sound Way to Easy Reading now, you can change his entire attitude toward school—turn his sense of failure into the joy of success. Try it free for two weeks. You send no money—just mail this coupon now!

These are the records and self-quizzing cards that can help your child gain as much as a full year's grade in reading in just a few weeks.

USED BY 80,000 PARENTS who send many letters like these:

Advanced two grades—"Larry was having a really hard time in second grade until he took your phonics course. Then, in two months, his grades went from D's and F's to A's and B's. I cannot give your course enough praise."

Mrs. Muriel Rich, Fairfax, Va.

Better marks—"At the end of his first semester in fourth grade, Gerald's *highest* mark was a D-minus. After working 6 weeks with the records his *lowest* mark was C."

Mrs. William Leger, Buffalo, S. Dak.

Four sons—"In twelve weeks, two of our boys brought up their reading grades from D to B. And our other two came up from D to C. I'll never get more for my money than I already have with your course."

Mr. John Gehde, Jr., Cassville, Wis.

IN 11,000 SCHOOLS Teachers are highly enthusiastic

Recommendations to parents—"We are using your course for remedial work in reading and phonics instruction. The children have been greatly helped. I recommend it to parents as a home-tutoring course for poor readers."

R. E. Pinson, Principal, Augusta, Ga.

A pleasure to hear my class read—"I am just delighted. In the last twelve weeks 22 of my 29 fourth grade pupils brought up their scores in silent reading. Their oral reading is so improved it's a pleasure to hear them now."

Mary L. Henderson, Crowley, La.
