

PROTECT PATENTS, CONTROL PROJECT PROGRESS

Permanently-bound Laboratory Notebooks keep results of R&D work in a form that provides proper proof of patent claims.

Consecutively-numbered pages, ruled for data tabulation or neat sketches, allow proper entry and witnessing of development work.

Notebooks are available with detachable duplicate pages which permit research managers to monitor all phases of a project.

Available immediately — \$4.00 each; quantity discounts.

Send free sample pages and price list.

Why Do You Have A Poor Memory?

A noted publisher in Chicago reports there is a simple technique for acquiring a powerful memory which can pay you real dividends in both business and social advancement and works like magic to give you added poise, necessary self-confidence and greater popularity.

According to this publisher, many people do not realize how much they could influence others simply by remembering accurately everything they see, hear, or read. Whether in business, at social functions or even in casual conversations with new acquaintances, there are ways in which you can dominate each situation by your ability to remember.

To acquaint the readers of this publication with the easy-to-follow rules for developing skill in remembering anything you choose to remember, the publishers have printed full details of their self-training method in a new booklet, "Adventures in Memory," which will be mailed free to anyone who requests it. No obligation. Send your name, address, and zip code to: Memory Studies, 835 Diversey Parkway, Dept. 540-012, Chicago, Ill. 60614. A postcard will do.—(Adv.)

films OF THE WEEK

Listing is for readers' information of new 16mm and 8mm films on science, engineering, medicine and agriculture for professional, student and general audiences. For further information on purchase, rental or free loan, write to distributor.

BIRDS: HOW THEY LIVE, WHERE THEY LIVE. 16mm, color, sound, 11 min. Shows what birds have in common with each other (wings, etc.), and what specific differences among birds make it possible for them to live in areas where others could not survive. Examples of feeding habits and body features of birds. Audience: elementary. Purchase \$120 from Film Associates, 11559 Santa Monica Blvd., Los Angeles, Cal. 90025.

CLOSEUP ON THE MOON—HQ 169. 16mm, color, sound, 11 min. A brief report on lunar photography by the Lunar Orbiter spacecraft; shows details of craters and other terrain features of the moon. Audience: high school, adult. Free loan from NASA Regional Film Libraries. For more information, write NASA Headquarters, Code FAD-2, Washington, D.C. 20546.

THE DRAG. 16mm, color, sound, 9 min. An animated characterization of "Mr. Modern Smoker" and the psycho-social nature of his habit. Audience: teenage and adult. Rent from Contemporary Films, 267 W. 25th St., New York, N.Y. 10001. (Produced for Canadian National Health and Welfare Department).

GUARDIAN OF THE ATOM. 16mm, color, sound, 28½ min. Describes the role of the U.S. Atomic Energy Commission and its laboratories, and the AEC's responsibilities in developing the peaceful uses and national security uses of the atom. Shows many examples of the use of the atom. Audience: general. Purchase \$132 from Motion Picture Department, Dept. of Agriculture, Washington, D.C. 20250 or free loan from AEC field libraries or from Audio-Visual Branch, Division of Public Information, Atomic Energy Commission, Washington, D.C. 20545.

CUT ANY MATERIAL WITH SUPER-HACK

In less than two minutes you can rip thru the hardest piece of metal (a FILE). This amazing tungsten-carbide saw will make curves, notches, straight cuts in materials formerly considered to be unsawable! You can cut glass, glazed tile, bricks, tool steel, marble,

and with very little effort.

Famous cousin of diamond, the furnace-made tungsten carbide now

joins the saw

blade (a du-

Pont develop-

ment) and you

have this mir-

acle blade. Fits

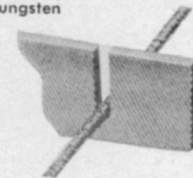

any hacksaw.

Ship as fol-

lows:

1 at \$2.79 3 for \$6.20

6 for \$2 ea. (total \$12) ppd.
