This is a gem, rarely seen before World War II, but then made famous by the teams of Frogmen that needed a rugged and reliable instrument that would not only give the date and tell time, accurately, in 150 feet of water, but would also be an elapsed time computer to tell them how long they'd actually been under. This is it. All parts are machine-calibrated in Switzerland where the complete works are neatly turned out under rigid inspection in two different factories, then assembled and tested, under pressure, in a third. It is guaranteed waterproof at 175 feet, is shock-resistant, antimagnetic, has an unbreakable mainspring, automatic 24-hour calendar, big sweep second hand, luminous dial and hands, gleaming stainless steel rustproof case, Frogman's steel wrist band or rubberized under-water strap. No matter how you use it, on land or sea, that's a big hunk of watch for only \$12.95 plus 65¢ postage & handling. Guaranteed for 1 year! In every way, a solid buy!
