THE IMPORTANCE OF MOTHER. 16mm, color, sound, 24 min. The social bond is the means of survival for many species. The all important foundation on which a monkey's social relationships seem to be based is its first social relation, with its mother. Teacher drain

Sir:

The article entitled "Teacher Drain to Canada" (SN: 3/23 p. 295) mentioned the fact that each teacher from Australia receives \$1,232 as a relocation allowance on his arrival in Canada.

As my wife and I are teachers who were recruited in Australia and are now teaching in British Columbia, I would like as much information possible about the relocation allowance.

(Recruiters in Australia and New Zealand represented municipalities in both Ontario and British Columbia. Recruitment policies were municipal, not national or provincial responsibilities. The relocation allowance was offered by Toronto recruiters, who hired more than 100 teachers. Ed.)
