products AND ideas OF THE WEEK

An editorial service to readers; more information on items can be secured from the manufacturers. Prices are sometimes changed without notice.

Tamper-proof weights

Sealed against tampering by students, these balance weights are especially useful in school laboratories, helping to reduce replacement costs. The weights are made in one piece. Traditional two-piece weights can be taken apart, and the shot inside removed and lost, destroying the weight's accuracy.

Price: \$5.35 per set and up
Ohaus Scale Corp.
1050 Commerce Ave.
Union, N.J. 07083

Liquid dispenser

Transfer of oils, paints, acids, caustics, solvents and other chemicals is made safer and easier by this corrosion-proof plastic adapter. Its up-turned spout eliminates dripping and seals out outside contamination. Special adapters are supplied to fit any container.

Price: \$12.50
Wataw Industries
P.O. Box 657
Lock Haven, Pa.

Analogue fluidics learning kit

Students can become acquainted with the fundamentals of fluidics by working with the materials in this portable analogue fluidics learning laboratory kit designed for use in educational institutions. The kit includes an instruction manual containing 13 experiments and devices such as proportional amplifiers, rectifiers, resistors, gauges and fittings.

Price: \$450
Specialty Fluidics Operation
Section 37-365
General Electric Co.
Schenectady, N.Y. 12305

Temperature computer

Mean skin temperature is displayed continuously by this temperature computer, which includes heat loss by radiation and convection in calories per hour in its calculations. The readings are produced instantaneously allowing an investigator to observe the results of his experiments while they are being conducted. Suitable for use with humans or animals, the instrument includes a chart recorder for permanent data when desired.

Price: \$5,720
Brookline Instrument Co.
33 Virginia Rd.
White Plains, N.Y. 10603

Laboratory wagon

Constructed like a boy's delivery cart, this wagon helps solve laboratory transportation problems. Capable of

handling heavy equipment up to 200 pounds, the wagon has a 15x35-inch hardwood bed with removable staked sides and rubber tires. Its three-foot T-grip handle provides maneuverability and prevents the cart from chafing at the heels of the operator.

Price: \$37.95
Will Scientific Inc.
39 Russell St.
Rochester, N.Y.

Ultrasonic cleaner

Measuring 6x4x4 inches, this ultrasonic cleaner for household or laboratory use is suitable for cleaning jewelry, coins, combs and other small items. The electric unit is housed in a stainless steel cabinet and comes with a 3x1½-inch crystal beaker and powders for making cleaning solutions.

Price: \$39.95
Edmund Scientific Co.
380 Edscrop Bldg.
Barrington, N.J. 08007

Hydraulic lubricant/sealant

Leaks and weeping joints in hydraulic systems are reduced by this lubricant and sealant. The product which prevents loss of fluid and external contaminants from entering the system also provides lubrication increasing the life of the pump and cylinder parts. An industrial testing unit is available for research and individual testing.

Price: \$20 per testing unit
Oil Center Research, Inc.
P.O. Box 51871
Lafayette, La. 70501

Instant hot-water heater

For office, factory, garage, barn or laboratory, this hot water heater attaches to a cold-water faucet to provide instant hot water when desired. The electric device is controlled to prevent overheating. It consists of a hermetically sealed, submersible unit containing a hot-cold switch and pilot light, and is powered by ordinary house current.

Price: \$34.95
Aqua Hot, Ltd.
565 Fifth Ave.
New York, N.Y. 10017

Echo locator

Originally developed for guiding the blind, this lightweight hand-held echo locator is useful as well for industrial and marine purposes. The device, by means of reflected echoes, helps locate obstacles obscured by smoke or fire and, on sea, buoys and small boats hidden by fog.

Price: \$95
Listening, Inc.
6 Garden St.
Arlington, Mass. 02174
