*This Year—Give*

# *Things of Science*

*It brings a year of pleasure . . .  
 a year of scientific experiments . . .  
 a year of adventurous learning . . .  
 to any youngster from 10 to 16*

THINGS OF SCIENCE kits (a new one is delivered to the recipient each month for 12 months) bring the principles of physics, chemistry, biology and mathematics . . . the fascination of industrial materials . . . to the young person who receives your subscription-gift.

Recent kits, for example, have covered:

**Aerodynamics** • **The Sundial** • **Holography**  
**Sound** • **Glass** • **Crystal Growth**  
**Soilless Gardening** • **Probability**

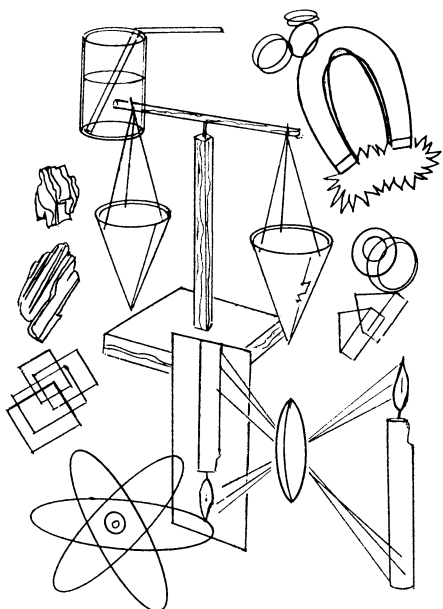

And each kit brings the enjoyment of learning by doing, as well as an invitation to further learning.

Use the special coupon below to give one year of THINGS OF SCIENCE (12 kits throughout the year) for only \$9.50.

There is no more rewarding gift for a science-minded youngster than the THINGS OF SCIENCE kit he'll receive **every month** throughout the year.

Each kit is self-contained, scientifically accurate, with its own information leaflet, suggested experiments and all necessary materials.

THINGS OF SCIENCE kits on a wide range of subjects are designed for a happy adventure (as it should be) and a learning experience at the same time.
