be nice to our computer

And he'll let you buy any book in print.
For up to 81% below bookstore prices.
No exceptions. And no fooling.

After all, he's been doing it since April 7, 1968. The day 100 booklovers discovered a wonderful new way to buy books. At HUGE DISCOUNTS. By using a computer.

Nothing "sneaky", you understand. We just programmed those 100 booklovers into our IBM-S/360 computer. Connected that to our new Computer Control Network. And connected that to just about every publisher in the continental United States. Electronically.

So when someone wanted a book, he didn't have to go to a bookstore. Or join a book club. Or borrow it from the library. We just punched a button. And got it for him straight from the publisher. Direct. Bypassing the wholesaler. Bypassing the jobber. Bypassing the distributor. Bypassing even the retail bookstore. In fact we bypassed virtually every middleman (and markup) in the entire book distribution chain.

Which made those 100 booklovers very happy. Because they saved a lot of money. Up to 81% on every book they bought. UP TO 81% ON EVERY BOOK IN PRINT. Fiction as well as non-fiction. Hard cover as well as paperback. Best sellers as well as classics. Even reference works, encyclopedias, college texts and professional books. No exceptions.

Wasn't that splendid? The 100 booklovers thought it was. And told some friends. Who told some more friends. Who told even more friends. Until just 13 months later there are now - not 100 - but more than 100,000 booklovers buying books this sensible new way. At HUGE DISCOUNTS. By computer.

Don't you think it's time you joined them? You don't have to be a "friend" of anyone's. You just have to have \$5. That's your Registration Fee. We don't pocket it. It goes to defray the (considerable) cost of programming your name and order number into our Computer Control Network. Which can store over 1 1/2 BILLION characters of information. And process book orders at a rate of TWO MILLION CHARACTERS PER MINUTE. So it's worth it. Especially since it's a "one-time" fee. Which means there are no other charges for the rest of your life. And no need to renew, ever. Once paid, you can keep on ordering books at discounts up to 81%—for life.

Just mail the Application Form below. But don't let the word "application" scare you. Mailing the form doesn't "get you into anything". Read it and you'll see there are absolutely NO obligations. NO strings. NO commitments to buy a certain number of books. Or any books at all. Unless you want to. And there will be positively NO "surprise" books arriving at your door with a bill simply because you forgot to return an annoying monthly card. (There aren't any cards to return.)

Convinced? Even if you aren't—why not mail the form anyway? See what it's all about. You can always get your money back if you change your mind. No questions asked. Just let us know within 10 days. Back will come your \$5 Registration Fee. And off will come your name from our computer tapes. Mail the form today—and never pay full price for any book again.
