# Are You A Slow Reader?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to increase your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

## THE HAVERSCOPE

So startlingly different are the design and performance of the HAVERSCOPE SYSTEM that you won't really believe it until you see it and use it. ■ With its standard objective, the HAVERSCOPE SYSTEM is an 8x, wide-angle (8.2°), 24mm monocular telescope—more powerful than most field glasses and binoculars. For an even larger field, just quick-change objectives and you have a 6x, super-wide-angle (11°), 18mm telescope. ■ The prismatic, fully coated optics are of the same uncompromising quality that you expect from the finest Japanese cameras—crispness, brilliance and complete planarity. ■ As an added bonus, the objectives may be used as 3x and 5x wide-field magnifier/loupes, of unexcelled definition and clarity. ■ Weight 3¼ ozs., length only 3½". Comes with handstrap and soft, flat, zippered case that fits snugly in gentleman's pocket or lady's purse.

Send me the HAVERSCOPE SYSTEM with case and exchange objectives. Satisfaction guaranteed. Refund in two weeks if not delighted. My check for \$18.95 plus \$1 for post. & ins. is enclosed. (Calif. resid. add 5% tax.)
