### FROM ABROAD

- 300 Letter from Canberra:** Progress in kidney treatment

### IN SCIENCE FIELDS

- 295 Organ Transplants:** Typing and preserving organs
- 298 Public Policy:** High-energy physics cut back

- 
- 286** Letters to the Editor

Institution for the Popularization of Science founded 1921; a non-profit corporation

**Board of Trustees**—Nominated by the American Association for the Advancement of Science: **Athelstan F. Spilhaus**, West Palm Beach, Fla.; **Wallace R. Brode** (Treasurer), American Chemical Society, Washington, D. C.; **Bowen C. Dees**, Franklin Institute, Philadelphia, Pa. Nominated by the National Academy of Sciences: **Henry Allen Moe**, The Clark Foundation; **Harlow Shapley**, Cambridge, Mass.; **Allen V. Astin**, Bethesda, Md. Nominated by the National Research Council: **Glenn T. Seaborg** (President), U.S. Atomic Energy Commission; **Leonard Carmichael**, National Geographic Society; **John R. Whinnery**, University of California, Berkeley. Nominated by the Journalistic Profession: **O. W. Riegel** (Secretary), Washington and Lee University; **Gordon B. Fister**, Cail-Chronicle Newspapers; **Peter Clark**, Evening News Association, Detroit. Nominated by the Edward W. Scripps Trust: **John Troan**, Pittsburgh Press; **Ludwell Denny**, Monterey, Calif.; **Edward W. Scripps II** (Vice President), Edward W. Scripps Trust.

Director: E. G. Sherburne Jr.; Assistant Director: Dorothy Schriver; Staff, Youth Division, Howard Weisbrod; Things of Science, Ruby Yoshioka.

# 16 things I learned from my wife

...since she started reading  
The National Observer!

"Barbara is a model housewife. But she's the last person I would expect to brief me about what is going on in the world. So you can imagine my surprise when Barbara began talking about such news as:

1. When peace breaks out: why top economists feel that South Vietnam will have a business boom.

2. How to be sure you are buying a genuine antique—and not junk.

3. Your private life may not be a secret: how insurance companies collect data about you.

4. How a new technique with ceramics is expected to put an end to dentures in the future.

5. The tax changes Nixon wants: why you may pay considerably less.

6. After Vietnam—what kind of U.S.-Asian policy?

7. Why a top federal official says that after billions of dollars have been spent, pollution control has been ineffective.

8. How housewives are organizing groups to wage an effective battle against high prices and inadequate service.

9. How you can increase and perhaps double your life insurance coverage . . . without spending a penny more.

10. How many families are saving hundreds of dollars on air fares by understanding the airline 'rate language'.

11. Four steps to take immediately to protect yourself if you lose your credit cards.

12. How a new invention using a computer and radio components may put an end to mid-air collisions of aircraft.

13. Why Canadian officials are considering making it easier for U.S. Army deserters to find sanctuary in Canada.

14. Why parents who want their children to go to college should begin planning by 9th grade.

15. How to save money—perhaps hundreds of dollars when you are purchasing a new car.

16. Why many people and even clergymen are secretly—and seriously—practicing witchcraft.

"Where did Barbara get all of this information? Certainly not from day time television or the

(continued from previous page)

local paper. No — a short while ago, on the advice of a friend, she took out a subscription to The National Observer, the national weekly newspaper. I could see the change in her almost immediately, and when I started reading The National Observer, too, I knew why. It really *explains* the news. Each story is not just a collection of facts, but a fascinating, thorough report that puts all the pieces together.

“Since The Observer presents national and world news without scare headlines and sensationalism, we are glad to see the children pick it up. Now we’re *all* discussing the news in our house.”

Today, thousands of families all over the country are enriching their lives and adding to their reading pleasure through The National Observer.

The National Observer is published by Dow Jones & Company, the same world-wide news-gathering organization that publishes The Wall Street Journal. The Observer has won top awards for six successive years for distinguished reporting.

Because The National Observer is printed on high-speed news-

paper presses in its four modern printing plants across the country — and because newspapers can be “made up” faster than magazines — last minute stories can be included only hours before The Observer comes off the press.

You get more news — and you get more out of it. In its full-size newspaper format (printed on our own special crisp, white newsprint) you often get more reading material than in other news weeklies — not just one major “cover story,” but five or six. Inside pages are important news pages, too — there’s no “letdown.” More than 50 excellent pictures and illustrations open windows not only on the people, places and events in the headlines, but also on such colorful sidelights as the amusing spectacle of an elephant giving his autograph.

## Many Enjoyable Special Features

Every week, too, The Observer brings you more than a dozen special features that add to your

enjoyment or broaden your knowledge in important areas. "This Week in Washington," for example, can be read in a matter of minutes, yet it brings you up to date on significant happenings in Congress, the White House, Government agencies, the courts and politics. Similarly, "How's Business?" fills you in quickly on important trends in business and industry, the performance of the stock market, and company and executive highlights.

For Bridge enthusiasts, there's "Better Bridge"; for crossword fans, a really challenging brain-tickler every week exclusively for Observer readers; for recipe collectors, a gem or two almost every week in "Food for Thought." And for both you and your youngsters, there's a weekly news quiz, plus "Current Events Classroom," a column which brings you news background on topics such as the mystery of certain Unidentified

Flying Objects for which the U.S. Air Force has no explanation or on how the Federal Reserve Board exercises its power and protects itself from Administration control. On the lighter side, "Reflections" explores random aspects of life: the "good old days" when a pocket watch was a major status symbol. And, "The Compleat Consumer" offers you tips on how to live better and get the best buy for your dollar, whether you're planning to buy a car . . . a camera . . . or take a vacation cruise.

**Send No Money—Just Mail Card**

You have to try The National Observer a while to appreciate how much it can mean to you and your whole family. So we invite you to accept this no-risk trial subscription offer. Just mail the postage-paid card, today.

If card has been removed, write to:  
The National Observer, 200 Burnett Road,  
Chicopee, Mass. 01021.
