

**Barbers talk a lot.
 Except when they
 find an electric
 shaver that outshaves
 a hand-honed
 straight razor.
 Then they keep it
 to themselves. Until now!**

A barber gets \$1.50 plus tip for a shave with his electric razor. For years he's kept the brand name hidden with adhesive tape.

Can you rightly blame him? For this professional instrument outshaves his hand-honed straight razor! You won't find it in stores. It's been a secret weapon of master barbers for years. It delivers a barber-close shave that lasts all day long. It does it faster and with less chance of irritation than a straight razor. That's why barbers use it on the toughest beards and the most sensitive skin.

Now the secret is out. A blabbermouthed barber talked. We have it. The Oster Professional Electric Shaver.

**Contoured Head—
 Like a Barber's Fingers**

The design is a barber's dream. Technically, the shaving head design is called a "double arch contour," because it sets up whiskers just like a barber does with his fingers. It means you get every whisker at one pass—as clean as if you had drawn a hand-honed, surgically sharp, straight razor over your face.

**4,000 Comb Traps—
 152 Surgical Steel Edges**

Four thousand comb-like perforations trap each whisker right at the skin line. Powerful 120-volt, 60-cycle motor drives the 152 surgical-sharp cutting edges to make the toughest beard disappear magically—without the slightest irritation to even the most sensitive skin.

**So Powerful,
 Whiskers Turn to Dust!**

Open an ordinary electric shaver and you'll find bits and pieces of whisker. That's because these run-of-the-mill shavers hack and chop your beard. But the Oster Professional Electric Shaver operates at nearly twice the speed—on ordinary household AC current—and actually pulverizes whiskers into fine microscopic dust.

**Separate Trimmer
 Other Great Features**

No expense was spared to make the Oster Professional Shaver to rigid, master-barber specifications. Motor-driven trimmer operates independently to trim moustaches and sideburns,

straight and neat for today's new "styled" look. The high-impact plastic housing is sculpted to fit your hand effortlessly. Removable stainless steel head rinses clean under running water. On-off switch, plus separate switch to operate trimmer. The specially counter-balanced drive gives you a smooth, vibration-free shave, and won't cause radio or TV interference.

It all adds up to an amazing shaving experience. An electric shave that makes your face come cleaner than a hand-honed surgical steel barber's straight razor — and in a lot less time.

Expecting a hefty price tag? Forget it! The Oster Professional Shaver was designed for barbers who don't go for expensive, unneeded frills. The price is only \$22.98, complete with carrying case — containing separate cord storage, cleaning brush and head cover.

10-DAY FREE TRIAL!

Treat your face to the Oster Professional Shaver for 10 days — 10 days of the smoothest, fastest, closest, most irritation-free shaving you've ever enjoyed . . . either blade or electric! Then, if not completely satisfied, return for a full refund.

**BUY WITH CONFIDENCE

active minds need useful outlets

Is your child looking for something extra to do? **THINGS of Science** provide hours of interesting activity in the world of science for the eager child with an inquiring mind. Each month he will receive a different kit on a different topic related to science, mathematics or technology.

THINGS of Science kits contain an explanatory booklet and simple materials for easy-to-do experiments that make science a "fun activity" and provide an outlet for his natural curiosity in the world about him.

The kits are designed for young people from 10 to 16, but many parents buy them for interested younger children. They are ideal for an afternoon project, scout meetings, neighborhood clubs, and playground activities.

A one-year membership, bringing twelve monthly units, is only \$9.50.
