

**WORLD'S
FIRST**

SPACE PEN

USED BY NASA

**WRITES 100
YEARS**

even upside down

ONLY \$3.98! It will be treasured for generations.

Developed for NASA astronauts, this amazing pen writes smoothly, evenly, dependably even over fingerprints, shop or kitchen grease, and water—even upside down!

The sealed cartridge has an estimated shelf life of over 100 years.* Put it away, forget it—it'll write again the instant you use it. Its gas pressurized principle defies gravity . . . writes at any angle . . . lets you write even lying flat on your back in bed.

This absolutely unique pen has 3 times more ink than ordinary ball pens. Its specially developed ink won't leak or evaporate. It's been approved in NASA laboratories to meet standards beyond anything you will ever encounter on earth.

An amazing and unusual gift . . . a real conversation piece. Ideal for executives. Perfect for one of those pad-loving teenagers who like to do their homework lying down. A godsend for invalids who live for their correspondence.

Here is a gift that will be treasured for generations as a fine writing instrument and a birth-of-the-space-age memento. For school, home, office, purse. Gleaming, impressive silver finish, in classic, silversmith design.

Not \$10.00, not \$5.00, but only \$3.98; 2 for \$6.98; 6 for \$18; 12 for \$33.
