The December skies

ENERGY FROM EARTH'S HEAT

Meet the Champ!

For some 6,000 years, the user of the two-pan balance has had to contend with—and still contends with—its built-in disadvantages. He either accepts lever-arm error and sensitivity error along with his weighing . . . or he's blissfully unaware these errors exist . . . or he weighs his sample, first on one pan, then on the other—and averages the two weighings to obtain the correct result.

Compare this with weighing on a Mettler top-loading balance. Your results over the entire weighing range are precise to one part in several hundred thousand. Results are reproducible for hundreds of thousands of weighings. And you obtain them in one-twentieth of the time. Moreover, they're clearly displayed on a digital

readout to eliminate reading error. You see your weighing result immediately . . . without having to count scale divisions.

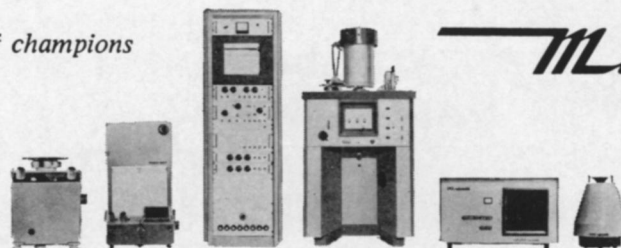

Special features that might be offered as optional extras (or which just aren't available) on other balances are already built into a Mettler. Like a filling guide which lets you weigh-in powders and liquids at high speed. An auxiliary scale on which you set over and under values, then checkweigh your product against these limits. A rapid taring feature which takes arithmetic out of batch weighing . . . you simply set the readout to zero before you weigh each ingredient.

These, plus many other time-saving, job-easing features, will solve your weightiest weighing problems and

make any weighing chore a breeze. And they're standard on every Mettler top-loading balance. There are 16 versatile models to choose from. Chances are that at least one will satisfy your needs just as if it had been tailor-made for the job. Whether you're teaching a crowded high school chemistry class and need weighing speed and operating simplicity. Or checkweighing 10 kg precision parts on a production line. Or weighing laboratory animals to one milligram. No matter what your weighing job, **there's no substitute for a Mettler.**

For complete details on Mettler top-loading balances, write Mettler Instrument Corporation, 20 Nassau Street, Princeton, New Jersey 08540.

Geothermal reservoirs may become an impor-
tant new energy source for the United States
and other countries. This stylized drawing shows
how intrusive magma heats water in certain
geological formations to produce hot water or
steam usable at the surface for electric power
production. See p. 415. (Drawing: Melinda
Armistead)

SCIENCE SERVICE

Institution for the Popularization of Science founded 1921; a non-profit
corporation

Board of Trustees—Nominated by the American Association for the Advance-
ment of Science: **Athelstan F. Spilhaus**, West Palm Beach, Fla.; **Wallace R.
Brode** (Treasurer), American Chemical Society, Washington, D. C.; **Bowen C.
Dees**, Franklin Institute, Philadelphia, Pa. Nominated by the National Academy
of Sciences: **Henry Allen Moe**, The Clark Foundation; **Harlow Shapley**, Cam-
bridge, Mass.; **Allen V. Astin**, Bethesda, Md. Nominated by the National Research
Council: **Glenn T. Seaborg** (President), U.S. Atomic Energy Commission; **Leonard
Carmichael**, National Geographic Society. Nominated by the Journalistic Pro-
fession: **O. W. Riegel** (Secretary), Washington and Lee University; **Gordon B.
Fister**, Call-Chronical Newspapers. Nominated by the Edward W. Scripps Trust:
John Troan, Pittsburgh Press; **Edward W. Scripps II** (Vice President), Edward
W. Scripps Trust.

Director: E. G. Sherburne Jr.; Assistant Director: Dorothy Schriver; Staff, Youth
Division, Howard Weisbrod; Things of Science, Ruby Yoshioka.

New! Self-Clean Infra-Red Electric Hibachi

Now enjoy smokeless "outdoor" barbecue indoors or on patio ...in all weather!...12 months a year!

The reason most of us drool even *thinking* about an outdoor-broiled steak, hamburger, or even a lowly hot dog, is that crispy, crusty brown exterior—that juicy, succulent pink interior—impossible to duplicate on any indoor broiler. Until now!

Now wondrous new Electric Hibachi does the impossible, creates luscious mouth-watering gourmet steaks, chops, chicken, seafood, hot snacks, that even the most avid barbecue-fan finds impossible to tell from outdoor-broiled. The secret—new, safety sheathed, UL-listed *infra-red heating element*. 1500 watts of broil-power! Inch for inch, there's never been a broiler this hot, this fast! Seals meat instantly, makes it impossible for juices and flavors to escape, broils away more fats and greases! Does it all without smoke, without steam, without spatter or splatter.

So clean, so attractive, you'll barbecue right on your dining room table (raised, heat-resistant legs protect table tops or linens). Quality made for lifetime service of heavy-gauge anodized aluminum. Bonded with triple-strength steel, plated in gleaming gold! King-size 13" x 9" x 7" broils 2 steaks, 4 chops, 6 burgers, 8 franks, shish kabob for 6. Plugs in anywhere. Full-year guarantee.

ONLY \$17.98; with shish kabob attachment, ONLY \$20.98.
