

One-shot macro with Bausch & Lomb's 35mm

Bausch & Lomb's 35mm Micro/Macro System for Technical Photography saves you time and money. The Canon through-the-lens spot-metering system assures convenient and accurate exposure measurements under all conditions. Most correction calculations have been eliminated. Time and film used in bracketing exposures are saved for more productive work. It surely is a "one shot" operation.

With extension tubes, rings or adjustable bellows you can get down close to your subject for 1:1 same size images on the film. Or, you can back off for an infinite number of magnifications, up to 15X without a microscope.

The right angle viewer makes for convenient observation of the specimen with the camera in the vertical position. For extreme, low-light level conditions there's a Light Meter Amplifier for exposures longer than one second. In effect, this optional attachment amplifies the available light by a factor of sixty-four.

Suggested list prices start at approximately \$500. Compare Bausch & Lomb with other less complete systems. Your checkbook will love you.

There's much more to the story and it's all in our new catalog 42-2326. Write for it and our free demonstration offer. 83835 Bausch Street, Rochester, N. Y. 14602

BAUSCH & LOMB 
SCIENTIFIC INSTRUMENT DIVISION

books OF THE WEEK

REPTILES OF OKLAHOMA—Robert G. Webb—Univ. of Okla. Press, 1970, 370 p., photographs, drawings, maps, \$8.95; paper, \$3.95. A survey of faunal regions of reptiles in Oklahoma, taxonomic list, keys to the reptiles, and accounts of species and their distribution.

THE SCIENCE, TECHNOLOGY AND APPLICATION OF TITANIUM—R. I. Jaffee and N. E. Promisel, Eds.—Pergamon Press, 1970, 1202 p., illus., \$48. Proceedings of an International Conference organized by the Institute of Metals, The Metallurgical Society of AIME, and American Society for Metals, in association with the Japan Institute for Metals and the Academy of Sciences, U.S.S.R.

SCIENCE YEAR: The World Book Science Annual 1971—Arthur G. Tressler, Ed.—Field Enterprises, 1970, 442 p., illus. in color, correct price: \$7.95. (SN: 10/31, p. 356).

A STRATEGY FOR EDUCATION—Herman T. Epstein—Oxford Univ. Press, 1970, 122 p., \$4.95. Detailed account of the author's tactics in restructuring teaching methods in a biological science course for nonscientists. Students are challenged to try to understand the actual processes of developing and testing the ideas presented in an advanced scientific research paper.

STRENGTH OF BIOLOGICAL MATERIALS—Hiroshi Yamada, M.D., F. Gaynor Evans, Ed.—Williams & Wilkins, 1970, 297 p., diagrams, tables, \$22.50. Results of a major longitudinal investigation and analysis of data on the mechanical properties of various organs and tissues of human and animal bodies, including data on age changes.

STRONG WATER: Nitric Acid, Its Sources, Methods of Manufacture and Uses—Thomas H. Chilton—M.I.T. Press, 1970, 170 p., photographs, diagrams, paper, \$1.95. Reprint (1968).

SYMMETRIES AND REFLECTIONS: Scientific Essays—Eugene P. Wigner—M.I.T. Press, 1970, 280 p., paper, \$3.95. Reprint (1967).

WILD FLOWERS OF THE UNITED STATES, Vol. IV: The Southwestern States—Harold William Rickett—N.Y. Botanical Garden (McGraw-Hill), 824 p., 2000 color photographs, 250 line drawings, in three parts, boxed, \$49.50. The fourth in the monumental six-volume series, describes in detail the native richness of the botanical region that comprises Arizona, New Mexico and southern California.

THE WORLD OF WATER—William C. Walton—Taplinger, 1970, 318 p., plates, \$10. A comprehensive digest of facts to inform the general reader about water in all its forms: oceans, glaciers, clouds, streams, swamps, lakes; and from all aspects: physical, biological, economic, social, legal and recreational.

THE YEAR OF THE SEAL—Victor B. Scheffer—Scribner, 1970, 205 p., illus. by Leonard Everett Fisher, map, \$7.95. Tells the story of an Alaskan fur seal mother and her companions in the great Pribilof Islands herd of more than a million animals, and the work of the wildlife research biologists watching the herd.

Listing is an editorial service for readers' information. For convenient purchase of any book listed or any U.S. book in print, remit retail price (we pay postage) plus 25c handling charge to Book Order Service, Science News, 1719 N St., N.W., Washington, D.C. 20036. Prices subject to publishers' changes. Be sure to include zip code in your address.
