Your child must memorize all his multiplication tables to pass in NEW MATH

TWO WEEK FREE TRIAL
Just send name—no money!

Musical Multiplication Records

teach all the tables from 2's through 12's as easily as the words of a song!

Help your child do better in arithmetic—especially in the New Math—by getting him these new multiplication records. Modern Math teachers insist on children memorizing their tables. Now even children of pre-school age can easily learn all the tables from 2's through 12's simply by playing these records.

No urging needed from parents. Children love these records. Each table has its own catchy tune and jingles. And the man on the record quizzes your child so the tables stick in his memory. He must know his tables to learn long division, fractions and decimals.

Send No Money. Just send coupon and the records will be mailed to you postage prepaid. If returned within two weeks after receipt, you owe nothing. If kept, pay only \$9.95, price in full. Bremner Records, Dept. E-207 Wilmette, Illinois 60091.

School Principal writes: "Your records have a unique teaching approach and a good one. Our pupils are taking new interest in their tables. Excellent as a home-tutoring aid."

A. Blair Owens, Principal, Lewiston Elementary School, Lewiston, Pa.

Parent writes: "All three of my children used your records and in 6 weeks had learned all the tables from 2's through 12's. Best investment I ever made."

A. J. Perez, Parsons, Kansas

For Alan B. Shepard Jr. it had begun nearly 10 years ago when he had become America's first man in space. Now he and Apollo 14 crewmate Edgar D. Mitchell were on the moon. The nation's third team of astronauts to land on the lunar surface spent 9 hours 19 minutes outside their lunar module and devoted far more time to science than their predecessors. See p. 110.
