

The Red Sea's hot spots

WE'VE DONE IT AGAIN

AAAS taped selective symposia during its Annual Meeting in Chicago, 26-30 December 1970. Since the initiation of the AAAS audiotape program in 1968 (Dallas), we have tried to document the important sessions and to improve the quality of the recordings. We feel the 1970 recordings will reflect these efforts.

The tapes listed below are offered for sale to persons who were unable to attend the sessions or who want a documentation of the symposia. The tapes have also proven to be a valuable educational tool.

All recordings are available as 5-inch open reels (playable at 3¾ inches per second on any standard playback machine) or as cassettes. The cost of the tapes is: single session symposium, \$15.00 per session; multi-session, \$15.00 for the first session and \$12.00 for each additional session ordered of the same symposium. Each session lasts about 3 hours.

Each symposium is identified by a number (56/70, 57/70, and so on) while the sessions of each symposium are designated by Roman numerals.

More complete details on the symposia may be obtained by writing to Grayce A. Finger, AAAS Audiotape Program, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005.

- 56/70—Numberless Scientific Applications of Computers (One Session).
