Zoom microscopy with the new Series Sixty adds a new dimension to learning. With infinitely variable magnification, your students can scan a wide field at the lower magnification range and immediately enlarge any interesting area up to 500X for a closer look. It gives a unique incentive to explore the micro world!

Specially designed wide-field eyepiece, with built-in pointer, is color-free and assures a crisp image. It also has high eyepoint, a specific benefit for the person with eyeglasses.

Flat-field, infinity-corrected, zoom optical system provides exceptional optical performance. You'll see all detail in fine sharp focus.

There's built-in slide protection, too. Auto-focus stop and the retracting nosepiece eliminate damage to costly slides. Sturdy, student-proof design and construction assure many long years of reliable service.
