HELIUM BALLOONS MAKE A "BALL"

Anytime there's a balloon the air is festive. Especially when the "air" is helium, which makes a balloon perky and adventurous. Now here's 25 times the fun—25 various colored balloons of 4, 5, or 6" diameter when inflated. With them, a pressurized (300 lbs./sq. in.) can containing 25 liters of helium

to inflate all 25. For adults or kids' parties, giveaways, bazaars or just demonstrating "lighter than air." Helium is a safe non-toxic inert gas.
 Stock No. 71, 289Q . . . \$3.00 Ppd.

CHARLES GOREN hails it as "The greatest bridge-teaching breakthrough I have ever seen!"

In just a few hours, these odd-looking cards with the holes in them can have you playing better than 90% of the bridge players in the U.S. (And if you're only a beginner, you can play real bridge in 15 minutes.)

Play bridge like an expert. It won't cost you hundreds of dollars for lessons, won't take long weeks of study. All it takes is BRIDGEVERYONE. This remarkable new bridge-teaching method guarantees you will learn to bid right the FIRST time you pick up your FIRST hand, dealt to you by BRIDGEVERYONE's Automatic Dealer. At the press of a button, this astounding little machine deals out a choice of 160 pre-programmed hands involving 40 different complete games, over 1,000 bidding situations and 500 play situations. You must make each bid correctly, play each card correctly. If not, BRIDGEVERYONE's exclusive Programmed Guide instantly tells you what to play and why.

FOR VETERANS AND NEW PLAYERS

Here is a mistake-proof method tailor-made for veteran players as well as novices. You can use it alone or with as many as three other players. It is the only system we know of that teaches cor-

rect offensive and defensive play simultaneously. The only system that offers beginners the opportunity to play real bridge with real cards after only 15 minutes. The only system that actually works to improve your card-playing memory... which, after all, is the key to success in any card game.

Try it just once...you'll sing its praises as enthusiastically as Charles Goren. What's more you won't risk a single penny. BRIDGEVERYONE must make you more proficient than 90% of the players around—in just 30 days—or simply return it for your money back.

Order NO. 41620: BRIDGEVERYONE set(s) at \$29.95 plus \$1.00 postage and handling.

N. Y. State residents add appropriate sales tax.

Send check or money order, or charge your credit card account. Please give account name, and your number. Free gift catalog on request.

finer things by mail from **The GALLERY** Dept. 2218, Amsterdam, N. Y. 12010

films OF THE WEEK

VD: A NEW FOCUS. 16mm, color, sound, 15 min. VD is pandemic, an epidemic everywhere around the world. This film presents an entire picture of the problem: the medical facts, the myths, the attitudes of young people concerning VD that often prevent prompt treatment. The film is set in locations throughout America, from New York City schools to suburban parks in California. Through subtle combinations of reality and drama, the young people themselves present the problems, outlining the answers in treating the disease. Purchase \$225 or rental \$25 from American Educational Films, Dept. SN, 331 N. Maple Dr., Beverly Hills, Calif. 90210.

THE RACE FOR CLEAN AIR. 16mm, color, sound, 27 min. The story of the great 1970 Clean Air Car Race from Massachusetts Institute of Technology to California Institute of Technology. Student teams from across the United States demonstrate that automobile air pollution can be controlled. This is the official film of the event, produced in cooperation with MIT and Caltech. Audience: general. Purchase \$375 or rental \$37.50 from Tech Films Corp., Dept. SN, 222 Arsenal St., Watertown, Mass. 02172.

THE DOUBLE HELIX. 16mm, color, sound, 12 min. The film is about the molecular structure of the chemical of heredity DNA. Several Nobel Prize winners discuss the research that led to our present understanding of the chemical process of heredity. Using animated diagrams and plastic models, the film stresses the importance of the molecular structure of DNA and its functions in life processes. The film also describes how DNA duplicates itself and controls the structure of proteins. Audience: high school. Purchase \$175 or rental \$17 from McGraw-Hill Films, Dept. SN, 330 W. 42nd St., New York, N.Y. 10036.

Listing is for readers' information of new 16mm and 8mm films on science, engineering, medicine and agriculture for professional, student and general audiences. For further information on purchase, rental or free loan, write to distributor.

Two Unusual Ecology Books

FUN WITH ECOLOGY

By G. G. Watson

The methods and techniques of the ecologist are clearly detailed here for youngsters ages 10-14. They can learn how to

1. Record field observations
 2. Measure distribution of plants and animals
 3. Study tracks and food trails
 4. Construct a blind to watch birds
- And many more clearly illustrated projects which will help them see the value in preserving the countryside for the future.

64 pages 7 1/4 x 10 \$2.95

PARKS FOR PEOPLE

By Whitaker and Browne

Parks should play a valuable part in the life of everyone who lives in a town, but too often they do not.

Here is a richly illustrated manifesto calling for more and better parks, describing the present situation and providing a wealth of ideas for new parks and the improvement of existing ones. Chapters on design, use, costs, vandalism, sports, arts, children and many others.

145 pages 6 1/2 x 8 \$5.95
