This Christmas

give your friends a window on the world of science . . .

SCIENCE NEWS will tell them what science is doing . . . why it's important to them . . . every week.

This Christmas, share SCIENCE NEWS, your window on the world of science, with your friends. There's plenty of room for them to look in . . . to share your view of what science is doing . . . to see why it's important to them.

SCIENCE NEWS is the ideal gift for busy executives, professional men, scientists in search of an overview of all the major fields of science, science teachers, science students.

Why? Because it is planned and edited for today's man-in-a-hurry. It reports on key developments clearly . . . accurately . . . concisely—in little more than an hour's reading a week.

For someone with no more than an hour to spare, SCIENCE NEWS is a reliable summary of important

news. For the reader with more leisure, it is a guide to subjects he may want to pursue in more detail in other journals of science.
