34 Letters to the Editor

Books of the Week

Today's food faddists see vitamin E as an old
time elixir or cure-all and preach megavitamin
therapy. Scientists agree that it is essential
but say sufficient amounts are available in daily
diets. Present research is being designed to
discover how the vitamin works and what it
does. See p. 44. (Cover design: E. C. Doyle)

From literary magazines. Professional magazines. Political publications. Scientific journals. The freshest ideas from over 300 brilliant magazines—now reprinted in a single new periodical.

There has never been a magazine like INTELLECTUAL DIGEST before. Our editors read the most significant magazines and journals in the world, and select the articles most important to the thinking layman. INTELLECTUAL DIGEST culls from all fields: science, sociology, literature, politics, art, medicine, history, even zoology. Our only requirement is that every article be thought-provoking, important, informative—and *lively*.

Many articles are published in full. And when we do “digest,” we do so only by editing in collaboration with the author. Thus the integrity—even the complexity—of the original is retained.

In addition, three newsletters in each issue keep you up to the minute on the major disciplines of the social sciences, sciences and arts. Outstanding non-fiction books are excerpted, too—many before publication. (A few recent examples: Kate Millett’s *Sexual Politics*, Charles E. Silberman’s *Crisis in the Classroom*, Paul Goodman’s *New Reformation: Notes of a Neolithic Conservative*.)

Doesn’t this sound like the kind of magazine you would like to read? You can try an issue of INTELLECTUAL DIGEST without cost or obligation. Just mail the coupon and a complimentary issue—with over 15 articles from 15 publications—will be sent to you.
