IT'S SCIENCE FAIR TIME

Do you need inspiration for a science exhibit? Do you want a suggestion for a project?

THOUSANDS OF SCIENCE PROJECTS is a collection of the answers given to these questions by thousands of boys and girls who participated in fairs leading to the International Science and Engineering Fair, or who competed in the Westinghouse Science Talent Search.

Each title represents a project completed by at least one student. Some projects are so basic that they have been done by thousands of young people. Some are largely original.

The titles have been classified by subject matter using the Library of Congress classification system so you can more easily find out what you want.

A ready source of ideas for students at all age levels.
