

films OF THE WEEK

CIRCLES. 16mm, color, sound, 7 min. A computer abstract film which explores space, unencumbered by the forces of gravity. This motion picture was generated by a CDA 660 and plotted on a 40/20 micro-film plotter. The raw computer footage was edited and color processed with the assistance of Robert Brown and Frank Olvey. Electronic music by Morton Subotnick. Audience: general. Purchase \$135 or rental \$15 from Creative Film Society, Dept. SN, 14558 Valerio St., Van Nuys, Calif. 91405.

TOMORROW IS MAYBE. 16mm, color, sound, 60 min. Scenes of Yellowstone National Park, Pikes Peak, Mesa Verde and Arched National Monument are compared with scenes showing environmental problems confronting cities and suburbs in this visual essay exploring man's relationship to his environment. The wilderness, viewed as a hostile enemy to be tamed, is becoming commercialized because of man's exploitative attitude toward nature. The city with its smog, filth, rats and other hazards is another kind of wilderness. Audience: secondary, college, adult. Purchase \$550 or rental \$20.50 from Audio-Visual Service, Dept. SN, Indiana University, Bloomington, Ind. 47401.

MEMBRANE MICROFILTRATION—A NEW TOOL FOR CLASSROOM SCIENCE. 16mm, color, sound, 21 min. Junior and senior high school students can easily isolate and analyze environmental pollutants using Millipore membrane filtration. Millipore filters in combination with a filter holder, are tools for analyzing such air pollutants as cigarette smoke and automobile exhausts; and for analyzing drinking water, rivers and swimming areas for microbiological pollution. Audience: high school. Purchase \$200 from Millipore Corp., Dept. SN, Bedford, Mass. 01730.

COOPERATION IS OUR BUSINESS. 16mm, color, sound, 22 min. Explores many of the problems of both rich and poor countries in the world today, and stresses the need for international cooperation in solving these problems. Shows how the cooperative efforts at research and discussion among the 23 member countries of the Organization for Economic Cooperation and Development (OECD) are leading to solutions for some of the problems of large and small countries alike. Shows how the OECD is attempting to solve such problems as: overcrowding of towns and depopulation of the countryside, pollution of the human environment, tariff walls, and the unequal distribution of food supplies so that there is a surplus in one country while in another millions are hungry. Audience: social studies classes at all levels. Purchase \$225 or rental \$15 from International Film Bureau, Dept. SN, 332 S. Michigan Ave., Chicago, Ill. 60604.

RECYCLING FILMS. Three 16mm, color, sound films. "Ecology Lady" (11 min.) outlines the problems and potential of the neighborhood recycling center described in the words of its coordinator. "Recycling" (21 min.) shows existing systems of recycling which have been developed by industry and volunteer groups and new equipment systems which are being developed for tomorrow. "The Realities of Recycling" (38 min.) provides an in-depth look at today's recycling systems and tomorrow's innovative improvements now being developed. Audience: school, college, general. Purchase information from Stuart Finley Inc., Dept. SN, 3428 Mansfield Rd., Falls Church, Va. 22041.

SCIENCE OPTICS ELECTRONICS

POWER HORN BLASTS A MILE

Frighten prowlers, muggers, vicious dogs with 118 decibels. Just press and this Freon powered pocket-sized metal horn can be heard a mile away to signal for help or fun. Great for boating (it floats), hiking, camping, hunting, seashore, rooting for your team. Can be heard over traffic and congestion. Weighs only 3 oz. but contains up to 100 mile-piercing blasts. A real bargain.

Stock No. 41,423Q \$3.25 Ppd.
2 Refill Cartrs. (P-41,424Q) \$2.75 Ppd.

3' DIA. SURPLUS PARACHUTES!

THE REAL THING! ... kids and model rocketeers love them! Tie toy soldiers to the shroud lines, toss 'chute in the air and watch it gently float to earth. In model rocketry, it's an ideal deployment 'chute for recoverable nose cones. These 3-ft. diameter all-nylon parachutes with 8 shroud lines originally cost the gov't. about \$5 each. We offer 4 of them, each packed in a small cloth bag, at a fraction of the cost. Great buy, great fun!

Stock No. P-41,680Q \$3.00 Ppd.

VISIBLE V-8 ENGINE

Hours of fun! Get thrill of building your own easily assembled engine from over 350 parts. Then push starter and watch it run. Crankshaft revolves, pistons move, valves open and close in sequence with spark plugs. Does everything but burn oil. 1/4 scale, molded in 4 colors. Same motor used in many

auto-mechanic courses. Excellent, easy-to-understand "tech manual."
Stock No. 70,448Q \$13.50 Ppd.

Share the Thrills of Exploring Outer Space!

All DYNASCOPES, including this superb RV-6, 6-inch available on easy terms!

Now it's easy to join the thousands of serious amateurs who have discovered the excitement of exploring our mysterious universe. Your enjoyment begins right from the start, yet the challenges and rewards go on for years! And it's a hobby that can be shared at modest cost.

Choose from a Full Range Of DYNASCOPES® 4" Starting at \$49.95

Picking a telescope to fit your needs and your pocketbook is simple when you select a DYNASCOPE — the same instruments used by more than 150 schools, colleges and observatories. Prices begin as low as \$49.95, and your satisfaction is guaranteed by a full-refund warranty.

FASCINATING GUIDE YOURS FREE!

Read these valuable facts before buying any telescope. Mail coupon or postcard for your complimentary copy of this helpful guide.
