Barbers talk a lot.
 Except when
 they find an
 electric shaver
 that outshaves
 a hand-honed
 straight razor.
 Then they keep it to
 themselves. Until now!

A barber gets \$1.50 plus tip for a shave with his electric razor. For years he's kept the brand name hidden with adhesive tape.

Can you rightly blame him? For this professional instrument outshaves his hand-honed straight razor! You won't find it in stores. It's been a secret weapon of master barbers for years. It delivers a barber-close shave that lasts all day long. It does it faster and with less chance of irritation than a straight razor. That's why barbers use it on the toughest beards and the most sensitive skin.

Now the secret is out. A barber talked. We have it. The Oster Professional Electric Shaver.

**Contoured Head—
 Like a Barber's Fingers**

The design is a barber's dream. Technically, the shaving head design is called a "double arch contour," because it sets up whiskers just like a barber does with his fingers. It means you get every whisker at one pass—as clean as if you had drawn a hand-honed, surgically sharp, straight razor over your face.

**4,000 Comb Traps—
 152 Surgical Steel Edges**

Four thousand comb-like perforations trap each whisker right at the skin line. Powerful 120-volt, 60-cycle motor drives the 152 surgical-sharp cutting edges to make the toughest beard disappear magically—without the slightest irritation to even the most sensitive skin.

**So Powerful,
 Whiskers Turn to Dust!**

Open an ordinary electric shaver and you'll find bits and pieces of whisker. That's because these run-of-the-mill shavers hack and chop your beard. But the Oster Professional Electric Shaver operates at nearly twice the speed—on ordinary household AC current—and actually pulverizes whiskers into fine microscopic dust.

**Separate Trimmer
 Other Great Features**

No expense was spared to make the Oster Professional Shaver to rigid, master-barber specifications. Motor-driven trimmer operates independently to trim moustaches and sideburns

straight and neat for today's new "styled" look. The high-impact plastic housing is sculpted to fit your hand effortlessly. Removable stainless steel head rinses clean under running water. On-off switch, plus separate switch to operate trimmer. The specially counter-balanced drive gives you a smooth, vibration-free shave, and won't cause radio or TV interference.

It all adds up to an amazing shaving experience. An electric shave that makes your face come cleaner than a hand-honed surgical steel barber's straight razor — and in a lot less time.

Expecting a hefty price tag? Forget it! The Oster Professional shaver was designed for barbers who don't go for expensive, unneeded frills. The price is regularly only \$22.98, complete with cleaning brush and head cover. And now, for a limited time only . . . the Oster Professional is yours to enjoy for only \$19.99 — a healthy \$3.00 saving!

30-DAY FREE TRIAL!

Treat your face to the Oster Professional Shaver for 30 days — 30 days of the smoothest, fastest, closest, most irritation-free shaving you've ever enjoyed . . . either blade or electric! Then, if not completely satisfied, return for a full refund.

**SAVE \$3.00 BY ORDERING
 DURING THIS LIMITED SALE!**

**JAY NORRIS CORP., 25 W. Merrick Rd., Dept. JB-72,
 Freeport, N.Y. 11520**

Show me! I'd like to treat my face to the Oster Professional Electric Shaver's barber-close shaves — and save \$3.00, to boot! If it doesn't deliver smoother, faster, closer, more irritation-free shaves than I've ever enjoyed. I understand that I can return my shaver in 30 days for full refund or cancellation of charges (\$19.99, plus \$1.50 postage and handling — total: \$21.49). N.Y. residents add sales tax.
