

Sam Romano runs a tight ship. Here and on the moon.

Whether he's racing this sleek 32-ft. Islander or perfecting NASA's Lunar Roving Vehicle (LRV), Sam is truly a surface mobility expert.

Sam Romano is Program Manager of the Lunar Roving Vehicle Mobility System project for Delco Electronics in Santa Barbara, California.

During the last ten years, he's skippered such lofty aerospace efforts as the Mobile Lunar Laboratory, the Local Scientific Survey Mod-

ule, and the Lunar Wheel and Drive Program.

GM was the sub-systems contractor on the LRV, and with Sam's kind of experience to draw upon, they were

able to deliver wheels, motors, and drives; steering, control, and suspension mechanisms in an impressive 17 months — from contract to hardware.

A sailing buff since 1966, Sam enters the an-

nual Newport Beach to Ensenada, Mexico, race each May. Several hundred boats normally compete in the 100-mile race, and it takes around 26 hours to cross the finish line.

A member of numerous professional and honorary societies, we think Sam Romano typifies the dynamic personality which helps make GM run—and helps America get where it's going.

I HAVE NO MOUTH AND I MUST SCREAM

It was the computer's revenge. In rage, in frenzy, he turned us into monstrosities, imprisoning us deep inside his endless banks. Now I am a great soft jelly thing.

I have no mouth. And I must scream.

Get the idea? Gripping, chilling science-fiction offers some of today's most compelling reading. Harlan Ellison's "I Have No Mouth And I Must Scream" packs such

a wallop, it walked off with a Hugo—science fiction's Oscar—for the best science fiction short story of the year.

Ellison's wild tale and 22 others are waiting for you in a sensational collection. *The Hugo Winners*, a new, 864-page, double volume of all the Hugo short story winners from 1955 to 1970. The anthology can be yours as part of an equally sensational 3 books for 10¢ offer
