

# The most important reading in the whole natural world!

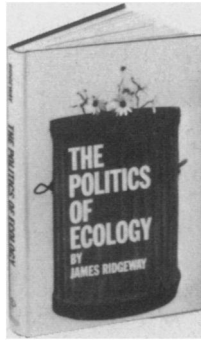

What can we do about our anti-human culture?

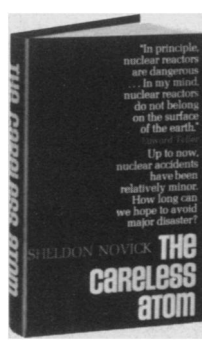

The fight to stop the slaughter of the baby seals

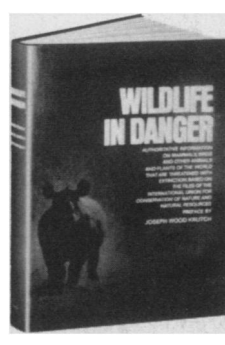

How can we design for the real needs of people?

Is our government planning to destroy us?

How dangerous are nuclear power plants?

Which animals are most in danger of extinction?

## All the worlds of man and nature await you in the NATURAL SCIENCE BOOK CLUB

It's exciting, informative, eye-opening all the way as a member of the Natural Science Book Club. Wonderful reading. Amazing savings. A stamp is all it takes to see your first three books. Why not send it and see for yourself?

**Take any 3 books** (values to \$41.65) **only 99¢ each**

if you will agree to accept only 3 more books in the next twelve months

(retail prices shown)

**45530. ENVIRONMENTAL PSYCHOLOGY.** Edited by H. Proshansky, W. Ittelson, L. Rivlin. The best sourcebook in environmental psychology; psychologists, architects, planners, etc. explore how people experience their physical surroundings—the way buildings and cities are used. **\$15.75**

**41970. DESIGN FOR THE REAL WORLD.** Victor Papanek. A scathing critique of the current irrelevant, "sexed-up" and downright dangerous products of industrial design — and a brilliantly imaginative look at how we can design for the real needs of people. **\$8.95**

**55620. IN THE SHADOW OF MAN.** Jane van Lawick-Goodall. A fascinating account of some of the decade's most spectacular discoveries in animal research—adventures among wild chimpanzees. **\$10.00**

**53690. THE HOUSE OF LIFE: Rachel Carson at Work.** Paul Brooks. Brilliant examination of the life and work of the environmentalist who helped remake history. Filled with previously unpublished selections from Miss Carson's letters. **\$8.95**

**58670. LIVING WITH YOUR LAND.** John Vosburgh. Provides suburbanites with all the insight and information they need to enjoy, preserve, and understand the natural world which lies at their doorsteps. **\$6.95**

**69550. THE POLITICS OF ECOLOGY.** James Ridgeway. Alarming evidence on how corporate polluters fight pollution *their own way* (with government help)—and perpetuate ecological abuse. **\$5.95**

**37020. BUYING COUNTRY PROPERTY.** Irving Price. A wealth of expertise and sound advice, from the head of one of the most successful country real estate firms in America. Canny tips on what to look for in a "little place in the country" — and what to avoid. **\$6.95**

**57270. KNOWING THE OUTDOORS IN THE DARK.** Vinson Brown. A unique guide to the undiscovered world of the woods at night. Tells how to detect animal and plant life by sight, sound and even smell. **\$6.95**

**86600. YOUR ENVIRONMENT AND WHAT YOU CAN DO ABOUT IT.** Richard Saltonstall, Jr. Just what the title says. Everyone talks about the environment—now we can do something about it. Pinpoints problems and provides answers. **\$6.95**

**87210. WILDLIFE IN DANGER.** James Fisher, Noel Simon, and Jack Vincent. Preface by Joseph Wood Krutch. An encyclopedic reference, exquisitely illustrated, to all the species of animals and plants in danger of imminent extinction. **\$12.95**

**45510. ENVIRONMENT, POWER AND SOCIETY.** Howard T. Odum. Applies systems analysis to today's challenging ecological problems. **\$9.95**

**67650. THE PENTAGON OF POWER.** Lewis Mumford. Capping a lifetime of writing and thought about our society, Mumford examines the anti-human, technological culture we have wrought — and what we can do about it. **\$12.95**

**37320. THE CARELESS ATOM.** Sheldon Novick. Closely reasoned, carefully documented account of the threat posed by nuclear power plants. Reveals the danger of accidental disasters and recounts numerous "incidents" that have already taken place. **\$5.95**

**33310. AMONG ANIMALS OF AFRICA.** Bernhard Grzimek. The famous zoologist and author of award-winning films tells about his fascinating first-hand studies of elephants, crocodiles, lions, ostriches and other animals. Color photos. **\$12.50**

**38100. CITIZEN NADER.** Charles McCarry. Hero to many, villain to others, here is the complete story of a man of paradox and incongruity in all his dimensions. **\$7.95**

**75300. SAVAGE LUXURY.** Brian Davies. The stirring story of the fight to stop the slaughter of baby seals in the Gulf of St. Lawrence—recounted by the man who spearheaded the crusade. Includes rare photographs of these beautiful animals. **\$6.50**

**73350. READING THE WOODS.** Vinson Brown. Scars from old forest fires, hints of nearby bear, warnings of insect plagues to come—the woodlands broadcast a whole code of signs to those who are alert. A handy guide for decoding these messages. **\$5.95**

**55440. INNOCENT KILLERS.** Hugo and Jane van Lawick-Goodall. A tour in pictures and words into the little-known worlds of the African jackal, the wild dog and the spotted hyena. **\$10.00**

**43390. THE ECOLOGICAL CONTEXT.** John McHale. The hard facts, without sentimentality or special pleading, of the ecological situation, and the options open to us for coping. **\$7.95**

**55320. THE INFINITE RIVER.** William H. Amos. Traces the endless cycle of a river — from its origins in the oceans where rain clouds rise to its source in the highlands through its course back to the sea. Richly re-creates the animal and fish life that thrive in its waters. **\$6.95**

**85230. THE UNEXPECTED UNIVERSE/THE INVISIBLE PYRAMID.** Loren Eiseley. The author weaves his unique and magical spell as he relates his haunting experiences with animals and in nature, speculates on our links to early man. *The 2 count as one book.* **\$12.70**

**53870. THE HUDSON RIVER.** Robert H. Boyle. Best-selling account of the destruction of one of America's mighty rivers. An eye-opener! **\$7.95**

**64560. THE NEW WORLD OF THE OCEANS.** Daniel Behrman. First-hand interviews and observations of the men who work in the sea, the pioneer oceanographers. **\$8.95**

**78350. SINCE SILENT SPRING.** Frank Graham, Jr. A remarkable substantiation of Rachel Carson's prophetic 1962 classic which sounded an early warning against the dangers of pesticides. **\$6.95**

**33780. ANIMALS IN MIGRATION.** Robert T. Orr. Told for the first time in a single book, the basic principles behind all animal migrations. Beautifully illustrated. **\$12.50**

### MEMBERSHIP APPLICATION

Natural Science Book Club 4-681  
Riverside, New Jersey 08075

Upon acceptance of this order, please enroll me as a member and send the three books I have indicated. Bill me only 99¢ each, plus postage and handling. If not delighted, I will return all books within ten days and this membership will be cancelled.

As a member, I need accept only three more selections during the next 12 months at reduced member prices, plus postage and handling. Savings range up to 30% and occasionally even more. I understand that I will receive free advance Reviews which fully describe each month's Main Selection and Alternates. If I wish the Main Selection, I need do nothing; it will come to me automatically. If I do not wish to receive the Main Selection, or I wish an Alternate Selection, I will advise you by using the convenient reply card provided with the monthly Reviews. I understand that I may choose a bonus book for every 4 selections purchased. (Introductory offer counts as first selection toward bonus book.) **Send no money.** Members are billed when books arrive.

**3 Books for 99¢ each are:** (Write in numbers)
