## Are astronomers seeing black holes?

# Can your child read these words?

napkin  
misty

fuzzy  
chicken

liquid  
velvet

punch  
whisper

camel  
zigzag

Your child will learn how to read these and more than 300 other words after working with the *very first record* of The Sound Way to Easy Reading.

Try out this Phonics Course **FREE FOR TWO WEEKS** with your child in your own home—without risking a penny. Mail the coupon below.

If your child is a poor reader, if he has not been able to keep up with his class in school—here is a way that *you* can help him. Many parents have seen their poor readers gain up to a *full year's grade in reading skill* in just six weeks with the Sound Way to Easy Reading.

As soon as your child starts playing the records and using the charts of The Sound Way to Easy Reading you will know why it works so well. It takes the mystery out of learning to read because it teaches your child by the *phonics* method (the method by which most parents learned to read years ago).

## Teaches with records

With this course your child discovers that letters have *sounds*. When he starts sounding out the letters he hears himself *saying* the word. *He's reading!*

The records *drill him in the sounds of the 26 letters of the alphabet* and their blends. By the time he completes the *first record* (about two weeks for the average child) he can read 300 words. After finishing all four records he has been taught 123 basic phonics sounds.

Once he knows these sounds he can read up to 85% of the words in the English language. It works for children of all ages—in the earliest grades and even in high school. Its records tell your child exactly what to do, so he can teach himself without any help from you.

## Tested and Proved

In a pilot study by university psychologists, children gained up to a full year's grade in oral reading skill after only 30 lessons with The Sound Way to Easy Reading.

A semester-long study involving 214 pupils in four Chicago schools proved that the classes given The Sound Way to Easy Reading showed marked improvement in reading and spelling over the control groups.

Don't think it's all your child's fault if he hasn't learned to read. Many of our brightest children are not able to grasp some of the current methods taught in most schools today. Many educators insist that at least 40% of our children *must* have formal training in *phonics*—that they will never master reading without it!

These are the records and self-quizzing cards that can help your child gain as much as a full year's grade in reading in just a few weeks.

## Help Your Child Now

So don't wait for your poor reader to reach high school before coming to his aid. By starting your child on The Sound Way to Easy Reading now, you can change his entire attitude toward school—turn his sense of failure into the joy of success. Try it free for two weeks. You send no money—just mail coupon.

### USED BY 150,000 PARENTS who send many letters like these:

**Advanced two grades**—"Larry was having a really hard time in second grade until he took your phonics course. Then, in two months, his grades went from D's and F's to A's and B's. I cannot give your course enough praise."  
*Mrs. Muriel Rich, Fairfax, Va.*

**Better marks**—"At the end of his first semester in fourth grade, Gerald's *highest* mark was a D-minus. After working 6 weeks with the records his *lowest* mark was C."  
*Mrs. William Leger, Buffalo, S. Dak.*

**Four sons**—"In twelve weeks, two of our boys brought up their reading grades from D to B. And our other two came up from D to C. I'll never get more for my money than I already have with your course."  
*Mr. John Gehde, Jr., Cassville, Wis.*

### IN 20,000 SCHOOLS

Teachers are highly enthusiastic

**Recommends to parents**—"We are using your course for remedial work in reading and phonics instruction. The children have been greatly helped. I recommend it to parents as a home-tutoring course for poor readers."  
*R. E. Pinson, Principal, Augusta, Ga.*

**A pleasure to hear my class read**—"I am just delighted. In the last twelve weeks 22 of my 29 fourth grade pupils brought up their scores in silent reading. Their oral reading is so improved it's a pleasure to hear them now."  
*Mary L. Henderson, Crowley, La.*

## FREE TRIAL Send No Money!

Bremner-Davis Phonics, Dept. D-207  
Wilmette, Illinois 60091

Please send me The Sound Way To Easy Reading, postpaid, *on approval*. After 2 weeks trial, if I see encouraging results, I will send \$5 as first payment and will remit \$5 each month for the next 6 months, only \$35 total. Or I will save \$5 by sending the \$30 total cash price. If not satisfied after first 2 weeks, I will return the course and owe you nothing.

### Low Power, Precision DIGITAL TIMING SYSTEM Model TS-50

Useful for a wide variety of precision timing and programming applications. Features digital read-out of seconds, minutes, hours, and (optionally) days with a stability of  $\pm 5 \times 10^{-8}$  day. Hard contact closures occur once each second, minute, hour, and day with time base accuracy. Modular design employs low-power integrated circuits, operates on 117VAC or 12VDC consuming less than 2W at 12VDC (display off, no IRIG), measures only 4 x 8.2 x 10 inches and weighs only 7.5 lb. Options include days display, BCD output, IRIG "C" or "H" serial time code, and decade pulse output (1 Hz—1 MHz).

# science news

SCIENCE SERVICE INCORPORATED □ 1719 N STREET, N. W. □ WASHINGTON, D. C. 20036

This complimentary copy  
of SCIENCE NEWS --

is our way of introducing the weekly newsmagazine that reports significant new developments in every field of science. I hope you will find it interesting, informative, useful.

Above all, I hope you will find it an excellent supplement to your specialized journals, because that is what SCIENCE NEWS is all about -- to give you a concise but comprehensive overview of the world of science ... in just minutes a week.

SCIENCE NEWS takes you where the action is -- from large university laboratories to out-of-the-way ecology sites, multi-hotel meetings in major cities to single subject symposiums in small college towns, not to mention the innumerable government agencies in Washington.

In the last 18 months, for example, SCIENCE NEWS reporters traveled over 135,000 miles in their quest for firsthand information to keep you well informed.

But on-the-spot news reporting is just one aspect of the complete picture SCIENCE NEWS gives you every week. Some 344 scientific journals from around the world plus a host of other publications are examined regularly. Significant findings are passed on to you.

In the feature Science Notes, the week's key developments are condensed and summarized into a series of brief items arranged by topic. Sources are clearly identified.

I think you will be pleased with the fast-paced style, deft organization and streamlined format. And I hope you will conclude that SCIENCE NEWS meets your need for a timely, accurate, authoritative source of science news to supplement your specialized journals.

Cost? Not much more than a cup of coffee a week. A full year, 52 news-filled issues, only \$10.00.

I am looking forward to welcoming you as a regular reader.

Sincerely,

E. G. Sherburne, Jr.  
Publisher

EGS:pa

## How to Argue and Win!

Here is a clear simply written basic guide to logical thinking, showing how to spot the fallacies, the prejudices and emotionalism, the inappropriate analogies, etc., in the other fellow's argument and how to watch for and avoid the irrational in your own judgments. The author makes plain not only *how* but also *why* people resist facing the truth.

A tool for *clear thinking* as well as *convincing others*. **ORDER NOW:**

— Statement endorsed by 187 eminent scientists, in *The Times* (London)

## BLUEPRINT FOR SURVIVAL

By the Editors of *The Ecologist*

Introduction by PAUL EHRLICH

Ever since its publication in England this positive, practical program to control the ecological crisis has created an international furor. It is now available in book form in the United States, and is being acclaimed as —

"One of the most important books of our time."

— DR. KENNETH R. H. READ

"The sanest statement I have seen in the popular press and a good deal saner than many in the scientific press."

— SIR FRANK FRASER DARLING

"A thought-provoker, and it clearly delineates the hard decisions facing mankind." — *Houston Post*

HELP YOUR STUDENTS LEARN . . .

math  
techniques  
essential  
in  
chemistry

Communication Skills Corporation's new series of **multimedia programs for individualized instruction** provides the college and secondary school chemistry teacher with a means of teaching and reinforcing the basic math techniques essential to chemistry.

Each low cost unit consists of a filmstrip (or slides), a compact audio cassette, and student exercise booklets. The student works unassisted at his own pace, repeats elements as necessary, and tests his understanding of the material.

Ten programs covering six subjects are presently available:

- Converting Numbers to Exponential Notation
- Arithmetical Operations with Exponential Numbers
- Determining Significant Figures (2)
- Using Simple Logarithms (2)
- Solving Simple Equations (2)
- Collecting and Plotting Data (2)

Communication Skills Corp.  
1220 Post Road  
Fairfield, Conn. 06430

## How Fast Can You Read?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to increase your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, most people, regardless of their present reading skill, can use this simple technique to improve their reading ability to a remarkable degree.

Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this publication with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new booklet, "How to Read Faster and Retain More" mailed free to anyone who requests it. No obligation. Simply enclose a dime to cover postage and handling. Send your name, address, and zip code to: Reading, 555 E. Lange Street, Dept. 857-02, Mundelein, Ill. 60060. A postcard will do.
