

# films OF THE WEEK

**AIN'T GONNA EAT MY MIND.** 16mm, color, sound, 34 min. Filmed on mean streets and pulls no punches with the "effing" and scatological language. The film begins with the murder of Black Benji, a member of the Ghetto Brothers. The South Bronx territories became charged with murderous retaliation as the gangs gathered. And they brought their guerrilla arsenal of machetes, chains, guns and switchblades. But unlike the bopping gangs of the 50's and 60's, many of the warlords and presidents are older. They insist that they are not gangs, but organizations. So a summit meeting was called to exchange views and hopefully to de-fuse the situation. The film tells about the outcome of that explosive caucus and a great deal about 200 potentially dangerous young men involved. Audience: high school, college, adult. Purchase \$400 from Carousel Films, 1501 Broadway, New York, N. Y. 10036.

**GEOMETRIC PROOFS SERIES.** Super 8mm, color, silent, series of 19 films. "Visual" proofs and constructions for some of the most commonly posed problems for beginning geometry students. Titles include: Binominal Theorem; Pythagorean Theorem—Proof by Parallelogram Deformation; Sum of the Angles of a Triangle; Pythagorean Theorem—Proof by students. Titles include: Binominal Theorem; —Perigal's Dissection; Area of a Parallelogram; Area of a Triangle; Reflection Based on a Triangle; Intercept Theorem—Parallel Lines; Rotation Based on a Triangle; Circles—Angles at the Circumference and at the Center; Angle Bisection Theorem—Parallel Lines; The Quadrilateral Family; Angle Subtended by an Arc; Cyclic Quadrilateral; Incircle of a Triangle; Sections of a Cone; The Circumcircle; and The E-Scribed Circle. Audience: high school. Purchase \$24 per film or \$456 for set of 19 films from BEA Educational Media, 2211 Michigan Ave., Santa Monica, Calif. 90404.

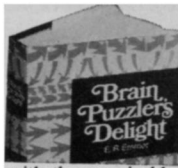

**INVESTIGATING HIBERNATION: THE GOLDEN-MANTLED GROUND SQUIRREL.** 16mm, color, sound, 14 min. Dr. Eric Pengelley, one of America's foremost authorities, helps clarify the principles of hibernation. He traps golden-mantled ground squirrels in the High Sierras. In his laboratory, the female squirrels bear young which are raised under test study conditions. As autumn approaches, squirrels in the natural environment go into hibernation. In the meantime, the laboratory animals are removed from all stimuli, and kept at a controlled temperature. The test squirrels still hibernate, a phenomenon investigated by means of electrocardiograms. Their heartbeats descend from normal 400 beats per minute to 2; and body temperature lowers from 37 to 2 degrees C. Audience: high school. Purchase \$167.50 from Encyclopaedia Britannica Educational Corp. 425 N. Michigan Ave., Chicago, Ill. 60611.

**JENNIFER IS A LADY.** 16mm, color, sound, 26 min. A prescriptive language development program for two children with a diagnosis of infantile autism. Emphasis is on methods and techniques used by teachers, individually and with a group, to foster receptive and expressive language. Audience: mental health, early childhood education. Purchase \$300 or rental \$25 from Pre-Schooler's Workshop, 38 Old Country Rd., Garden City, N.Y. 11530.

**A LOOK AT CHEMICAL CHANGE.** 16mm, color, sound, 15 min. Every observable object has properties such as color, weight, shape, etc. Simple experiments, such as a burning candle, ripening fruit, boiling water and others, are used to demonstrate various changes in the properties of matter. Audience: upper elementary and junior high. Purchase \$220 or rental \$21 from McGraw-Hill Films, 1221 Avenue of the Americas, New York, N.Y. 10020.

Listing is for readers' information of new 16mm and 8mm films on science, engineering, medicine and agriculture for professional, student and general audiences. For further information on purchase, rental or free loan, write to distributor.

## SOLVE THIS PUZZLE —

Jones, Brown, Smith, and Robinson were either a Driver, a Stoker, a Guard, or a Porter. Each wore either a red, blue, black or green shirt.

The Driver beat Brown at billiards and Smith and the Guard often played golf with the men in black and green shirts. Jones and the Porter disliked the man in the green shirt, but this was not the Stoker as he always wore a red shirt.—What was each person's occupation and color of shirt?

The correct answer to this and 100 MORE varied mind-stretching Problems are found in **BRAIN PUZZLER'S DELIGHT** by E. R. Emmet. Order Now: \$5.95, plus 30¢ handling.

## FLY the WINNERS of the GREAT INTERNATIONAL PAPER AIRPLANE CONTEST

Now you can make and fly 20 of the most unusual paper airplanes in the world. All are replicas of the winning entries in SCIENTIFIC AMERICAN's First International Paper Airplane Competition. Fantastic 128-page book has all 20 on perforated pages so you can easily tear them out, fold on the printed lines, and watch them go. You won't believe how they fly, and the records they achieved! See if you can match them. Big 9" x 11 3/4" volume includes plans of all winners, time-aloft records, photographs, technical data, commentary.

Young and old alike will be fascinated by this

official paperback by Mander, Dippel & Gossage. It's easy to read, highly entertaining and very practical for countless, amusing flying hours. The planes are wild and the information about them will make you a confirmed airplane buff, if you aren't already. The book will inspire your own "best aircraft engineer" contest . . . have you modifying and making your own models. It's a great way to learn to "fly" and maneuver various paper planes, even use them to send messages.

The various models in the book also make intriguing "place cards" at parties . . . and the book itself can be a cherished prize for party game winners.
