# NOW - You Can Speak A Foreign Language In Just 24 Study Hours!

...or send your youngsters  
to the head of the class!

## The First Language Method That Taps The Miraculous Powers Of Computer Technology!

The same computer science that landed men on the moon will have you speaking **FRENCH, GERMAN, ITALIAN** or **SPANISH** in 24 enjoyable study hours. What's more, we guarantee your satisfaction or you owe us nothing!

Here at last—the revolutionary method that has given thousands of people the gift of learning a second language. You merely complete the simple home-study course—a combination of recorded instruction and easy-to-follow booklets...and your success is assured!

It makes no difference if you never studied a foreign language before... it doesn't matter if you found languages difficult in school. Each language has been computer analyzed, organized and boiled down to the pure basics. The computer has already done the hard work for you. You simply master the program on the records and we promise you will speak easily, fluently and with more self-confidence than the average student.

### HERE'S HOW IT WORKS...

Play the recordings in the comfort and privacy of your home. Follow each simple lesson with the booklets provided. You will be asked to respond to the instructor's voice, first with easy, short phrases... later in more complex sentences. But always, you will find yourself answering easily, rapidly and with an authentic accent.

In a series of tests carried out among people of all ages, educational levels and "IQs," it was found that the Wittnauer method worked in the majority of cases. The average time to achieve conversational fluency was 24 study hours. Half of those participating spoke the language fluently in less time! Most important—the majority learned a second language more rapidly and with better command than had ever been achieved by any language method in that much time.
