

Amazing Mini-Vac
PUMP
Pumps Water Out
or In by the TON

Gets Rid of Water anywhere, Instantly: Homes, Pools, Boats, Farm, Cabins.

Pumps up to 350 gallons (1½ tons) per hour . . . lifts water 20 feet . . . pushes water 50 feet high. Just plug into any electrical outlet and it's ready to use. It will drain or empty flooded basements, boats, pools, sumps, tanks, silt pits etc. Or in reverse it will water gardens, fill pools, fill a boat's water supply, etc. Everything complete in one kit. Built to commercial professional standards. Instant self-priming pump. Stainless steel wear plates, glass fiber reinforced case, rock rubber impeller. System includes air cooled motor, six-foot heavy-duty ground cord, two suction and discharge hoses, brass retainer, etc. Ten year replacement plan guarantee. \$39.95 plus \$1.50 pp. and Hdg.

FLAT TIRE!

Million miles from nowhere and your spare has no air!

What would you give to have your own compressor that works off your cigarette lighter? **AUTO-FLATOR**, 6½" long, produces amazing 60 lbs. pressure! Pumps any size tire in minutes. Inflates space-saver spare, air-jacks, rafts, air mattresses, pools, etc. Operates on 12-volt system in auto, trailer, truck or boat. 10-day trial. Complete with 10-ft. air hose, inflator attachments and plug.

\$29.95 (plus \$1.50 shipping)

Split-Image Transit

The Most Revolutionary
LEVEL & INCLINE MEASURE
Ever Made!

IDEAL FOR:
Contour Plowing
Carpentry
Brick Laying
Cement Work
Surveying, etc.

Leatherette Case \$3.95

This simple yet amazingly accurate instrument indicates level and measure incline down to a fraction of an inch. Makes bubble type or string levels obsolete. It not only indicates level, but shows exactly how much correction is needed. Just one person, using the split-image transit and target supplied with it can perform any levelling, incline-measuring job quickly, easily, accurately—measure inclines down to the thinness of a dime at 25 feet. Satisfaction Guaranteed.

DOG WASTE GONE

DOGGIE DOOLEY keeps grounds clean, insect-free, sanitary. Rustproof heavy plastic doggie septic tank installs in ground; uses safe, non-poisonous enzyme-bacteria to liquefy pet stools for ground absorption. Shovel up stools, drop into tank, close lid. Enzyme-bacteria action does rest. Harmless to pets, lawns, shrubs. Handles wastes of 1 to 3 dogs. 17½" x 11½" with foot-operated lid, shovel, 6 mos. of enzymes, and moisture holding tray for faster action. \$10.95 plus \$1.50 postage. Extra 12 mos. enzymes \$3.95 plus 60¢ postage.

films OF THE WEEK

BEHAVIOR AND ECOLOGY OF VERVET MONKEYS. 16mm, color, sound, 40 min. Filmed in the Masai-Amboseli Game Reserve of Kenya, this field study describes basic aspects of the behavior and ecology of free-ranging vervet monkeys, including social structure, behavior patterns employed in social interactions, dominance, sexual behavior and mother-infant relations. Dr. Thomas T. Struhsaker of the New York Zoological Society and The Rockefeller University describes the general habitat and interspecific relations of this vervet population. Audience: undergraduate, graduate, students interested in behavior in general or in primate behavior. Purchase \$400 or rental \$20 from The Rockefeller University, Dept. SN, Box 72, Film Service, 1230 York Avenue, New York, N.Y. 10021.

EYE TO EYE WITH WILD ANIMALS. 16mm, color, sound, 21 min. The Budapest Zoo has conducted interesting and innovative experiments in animal growth and behavior involving the raising of animals from infancy by foster-parents of another species. These experiments have been recorded by the camera and edited into a film on animal behavior which puts the viewer "eye to eye" with wild animals. A brief, concise narration generalizes upon the substance of the filmed behavior, and extends its implications for the understanding of animal life both in and out of captivity. Audience: elementary, high school and adult. Purchase \$285 or rental \$25 from McGraw-Hill Films, Dept. SN, 1221 Avenue of the Americas, New York, N.Y. 10020.

FIRST FRIENDS. 16mm, color, sound, 22 min. Shows how a child becomes part of a group. Set in a pre-school, youngsters play together and reveal a wide range of feelings, attitudes and behavior. Development is shown as related to changes of mind and body which lead to a sense of self-mastery and independence. Self-centered activity of the toddler is being replaced by social interaction—affection, aggressiveness, problem sharing. Both verbal and nonverbal communication are highlighted. By presenting both problem situations and cooperative behavior, the film raises many of the issues involved in handling expressions of emotion, different forms of activity, and varying levels of coping skills. It places the viewer in the position of having to grapple with when to intervene or when to allow the child to solve problems independently. Audience: professionals and para-professionals; high school, college, graduate school courses in psychology; parents, teachers. Purchase \$285 or rental \$17.50 from International Film Bureau, Dept. SN, 332 S. Michigan Ave., Chicago, Ill. 60604.

GLOVE BOX FIRES. 16mm, color, sound, 25 min. Improvements, relating to fire safety, made to the plutonium processing facilities of the Rocky Flats Plant after and as a result of a major fire are shown. The fire properties of glove box construction materials and means for protecting high efficiency particulate air (HEPA) filters from the effects of fire in the glove box system are shown. The design of radiochemical processing buildings and interaction between the design and escape of particulate contamination are explained. Burning-rate tests of various construction materials installed on a full-scale glove box are presented, and results of tests of various sprays and mist eliminators are shown. These tests resulted in recommendations for materials and devices which are shown as installed. Audience: technical, professional. Purchase information from Sales Branch, National Audiovisual Center, Dept. SN, Washington, D.C. 20409 or free loan from USAEC Film Library-TIC, P.O. Box 62, Oak Ridge, Tenn. 37830.

Listing is for readers' information of new 16mm and 8mm films on science, engineering, medicine and agriculture for professional, student and general audiences. For further information on purchase, rental or free loan, write to distributor.

FREE brochure shows 62 ways to organize with Magnetic Visual Control Systems!

Let Methods Research show you how leading companies and institutions use our Magnetic Visual Control Boards to increase efficiency, save time and money. Now you can profit from their experience in controlling Programming, Production, Scheduling, Shipping, Personnel, Sales, Quotations, Computers, Maintenance... Choose the system that suits your needs. Over 46 standard boards. 100 magnetic accessories.

Why Do You Have A Poor Memory?

A noted publisher in Chicago reports there is a simple technique for acquiring a powerful memory which can pay you real dividends in both business and social advancement and works like magic to give you added poise, necessary self-confidence and greater popularity.

According to this publisher, many people do not realize how much they could influence others simply by remembering accurately everything they see, hear, or read. Whether in business, at social functions or even in casual conversations with new acquaintances, there are ways in which you can dominate each situation by your ability to remember.

To acquaint the readers of this publication with the easy-to-follow rules for developing skill in remembering anything you choose to remember, the publishers have printed full details of their self-training method in a new booklet, "Adventures in Memory," which will be mailed free to anyone who requests it. No obligation. Send your name, address, and zip code to: Memory Studies, 555 E. Lange St., Dept. 857-03, Mundelein, Ill. 60060. A postcard will do.
