

# Why pay an answering service when you can own your own?

Dictaphone has a machine that makes sure that you never lose another cent through a missed phone call or a garbled message. In fact, we have a whole line of them.

They're called ANSAFONES. They answer the call and give out a message in your own voice and then record the incoming caller's message. There's even a model which will allow you to call in from any phone in the world and get your telephone messages played back to you automatically.

ANSAFONE telephone answering machines are not toys. They're sophisticated, high quality business machines designed to work for you 24 hours a day, 7 days a week. They help big companies cover their switchboards at night during off-hours, distributors take orders 24-hours a day and small businesses keep the phone covered and stay "open for business" around the clock.

You can buy one outright or, possibly, lease it for less than you would pay an answering service. If your business depends upon the phone for orders or incoming information, ANSAFONE can help you.

For a free brochure describing how much ANSAFONE can help you in your business, mail this coupon today.
