# AN EASY WAY TO CHANGE JOBS!

**'My system is simple, straight forward and quick — but it works.  
Do it right and I guarantee the highest earnings of your career!'**

I've got something that can help you earn a great new living and perhaps even make you rich!

Now, I know this seems hard to believe, but I can also *prove* it to you!

I say this because I've got letters from *thousands* of satisfied customers, . . . and a product which has been praised by 150 leading media!

What's more, at \$10, it's an incredible bargain, and I'll even give it to you without asking you to risk *one penny!*

However, first let me tell you what I have.

I've got a *copyrighted job changing system* that you can use to move up in your field, or out to another field, but at significantly higher earnings.

It took myself and five other professionals two years and \$250,000 to develop—*but it works!*

Furthermore, it doesn't require "genius" and it doesn't require "luck." All you have to do is put it into action.

The reason we developed it was because with 84 million employed, and 15 million circulating resumes each year, this area was ready for some revolutionary ideas.

We knew more people than ever owned prestige cars & yachts, summer homes and international retreats, as well as having securities, real estate holdings and lots of cash in the bank.

In short, many people in the U.S. are living good lives!

At the same time, however, the great majority have no excess cash, little job security, and are frequently restless, bored with their jobs, commuting long hours, and harrassed by inflation!

We asked ourselves how do people get to live the "good life"?

Well, we found that most successful people were there because they never wasted time in dead-end situations!

What these people did was to make crucial job changes, and *parley* their higher earnings into small fortunes!

Take a look at the economics!

Do you realize that if you were to change jobs every 4 years, at an average annual increase of \$4,000, and then put the increases in the bank at 6%,—that in 20 years you'd accumulate an extra *half million dollars!*

Getting raises is one thing, but getting significant increases because of job changes is a very important source for wealth!

The next question then, is how can you easily change jobs? This is where the unique system we've developed fits in.

Our system can work for anyone from \$8,000 to \$80,000. Do it right and you'll gain higher earnings, lifelong job security, but most of all, *everlasting* self confidence!

This is because once you've used it, you'll know you can *always* get a new job,—quickly and predictably.

Perhaps you're wondering why our system works? Well, it works because it's a *completely different approach*, based on totally new concepts.

But, also because it's simple, practical, and self-tailoring. You could start next week—and do it *without strain, confusion or worry.*

But, there is one catch! You won't be a success if you use old methods that have you sitting in employment agencies, laboring over application forms, answering blind ads, and scattering resumes.

To make more money without a hassle, you'll have to be willing to change. You'll also have to follow our system, have an open mind & have faith in yourself.

However, do this and a better life will be yours!

With our system, whatever you seek—a better job, a new career, higher pay, more satisfaction,—*I believe nothing can stop your success!*

Not age, sex, education, or even low earnings or past working history.

**Personnel Magazine** said we have a "*breakthrough.*"

**Business Week** devoted a full page article and called it "*indispensable.*"

**The National Public Accountant** even said it was "*capable of catapulting any average person into a position offering much greater rewards.*"

However, your best proof of our system is that we've already received thousands of letters from grateful customers.

Letters like one from a gentleman in Arizona who wrote, "*In 4 weeks I changed jobs and raised my salary 33%! I wish I had it 10 years ago!*"

Another man from New York said "*I used one of your letters, sent 24 out, and got 13 interviews and 3 job offers!*"

Still another from California said "*In just 11 days I received an offer of \$7,000 more!*"

I know this sounds almost too easy and I can't promise that you will do as well. But, then again you may do better!

Even the largest business magazine in the U.S., **Nation's Business**, said our system was "*incredibly effective.*"

Now, if you're serious about wanting to move up, then I know that our system is something you've got to have!

In fact, I'm so convinced that you'll agree that it's worth *hundreds of times the cost*, that I'll make sure you have nothing to lose.

First of all, when your order arrives, we'll ship within 24 hours. No delays!

Secondly, you can examine our system for 15 days.

Third, if at the end of that time you are dissatisfied, return it, & I personally guarantee your 100% refund will be mailed in 3 working days—with no questions asked!

To let me prove everything I've said, and to take advantage of this nothing-to-lose offer, just fill in and mail me the coupon below.

## Lakshmi Vora averages 30 miles a day with a computerized 400-cubic-inch V8.

About 12,000 miles from her native Bombay, Lakshmi's computerized V8 engine puts on mileage to assist in GM's continuing emissions research.

Lakshmi, who has a Master's Degree in Electrical Engineering, is responsible for programming a computer to simulate various driving conditions on a dynamometer. So "test-driving" can be done right in Test Cell One of the GM Research Laboratories at the Tech Center in Warren, Michigan. Thus, she provides a flexible research tool to study complex engine dynamics.

When "Lucky" leaves the V8 behind, she likes to relax by golfing, bicycling, or swimming. Or, indoors, playing bridge or playing the veena, a musical instrument similar to the sitar.

This talented engineer is one of eight thousand three hundred employees working with computers at GM today ... constantly discovering new computer applications and programs. Such activity has caused the number of computer information systems at GM to grow from 30 to 500 since 1959.

Lakshmi Vora is a beautiful example of the kind of interesting people working at GM to improve the quality of living and driving for us all.
