

Advice to youth on 1974 Science Fairs:

Winning a prize is more satisfying than not winning a prize.

Judges favor projects they can understand.

Well-planned photography may help them understand.

Now—not next spring—is the time to plan.

We offer helpful hints.

Any questions?

A New Generation of Power

A new Science Kit is now available demonstrating the properties of the Biolec Current Cell. Developed over a fifteen year period, this portable source of direct current operates on the principle of electricity generated by bacterial decomposition of organic waste. It has a remarkably long operating life, and is entirely pollution free. The science kit includes a number of demonstrations of this new concept in electricity. Send \$29.95 to Biolec Corporation/P.O. Box 13377/Houston, Texas 77019

This is the Original Swiss Army Knife precision crafted of finest stainless steel with red plastic case — by Victorinox of Switzerland.

A most thoughtful gift—ten of those essentials that you always seem to need but usually forget to bring on picnics, hikes, weekend jaunts and general tripping about. (Haven't you always wanted one?) **\$15.45**

Please add \$1.00 per order for postage and handling.

new REVOLUTIONARY FORD TURBINE ENGINE KIT.

1/8 SCALE ACTUAL WORKING MODEL.

Think Wankel's great? Build a 1/8 scale motorized model of Ford's "better" answer for a clean burning, economical engine and see it work! They've harnessed the power previously used in jet aircraft with ingenious engineering features like an exhaust regenerator, variable power turbine nozzle, and an electronic control system. Low fuel consumption rivals many diesels, and the engine is now in use in trucks, busses and boats. Exact detail pre-colored model shows glowing combustion chamber; actual working compressor, gears, turbine, generator and power output shaft. Uses 2 "AA" batteries (not incl.). Instructions come with kit.

JUST \$1295 Ppd.

SOLVE THIS PUZZLE —

Jones, Brown, Smith, and Robinson were either a Driver, a Stoker, a Guard, or a Porter. Each wore either a red, blue, black or green shirt.

The Driver beat Brown at billiards and Smith and the Guard often played golf with the men in black and green shirts. Jones and the Porter disliked the man in the green shirt, but this was not the Stoker as he always wore a red shirt.—What was each person's occupation and color of shirt?

The correct answer to this and 100 MORE varied mind-stretching Problems are found in BRAIN PUZZLER'S DELIGHT by E. R. Emmet. Order Now: \$5.95, plus 30¢ handling.

10-Day Money-Back Guarantee

Share the Thrills of Exploring Outer Space!

All DYNASCOPES, including this superb RV-6, 6-inch available on easy terms!

Now it's easy to join the thousands of serious amateurs who have discovered the excitement of exploring our mysterious universe. Your enjoyment begins right from the start, yet the challenges and rewards go on for years! And it's a hobby that can be shared at modest cost.

Choose From Many DYNASCOPES®

Picking a telescope to fit your needs and your pocketbook is simple when you select a DYNASCOPE—the same instruments used by more than 150 schools, colleges and observatories—and your satisfaction is guaranteed by a full-refund warranty.

FASCINATING GUIDE YOURS FREE!

Read these valuable facts before buying any telescope. Mail coupon or postcard for your complimentary copy of this helpful guide.

HUNT ROCKS AND MINERALS FOR FUN AND PROFIT

Get a foothold in the exciting fields of geology and mineralogy . . . Start your own collections of fossils and rock specimens . . . Prospect for valuable minerals and gems . . . Take up a fascinating hobby which combines the thrill of discovery and the benefits of healthful outdoor activity.

The ROCKHUND field kit contains all the equipment the amateur "rock hound" needs for prospecting and preliminary identification plus a 160-page guide to minerals, gems, and rocks with 400 illustrations in full color.

• Geologist's hammer • Cold chisel • 5x-10x folding magnifier • File • Magnet • Streak plate • Gloves • Safety goggles • Compass • Record book • Pen • Guide book • Canvas shoulder bag, 5"x13"x17" with room for kit, specimens, and rations for one meal.

ROCKHUND field kit, only \$29.95 ppd.

SCIENCE TEACHERS. Volunteer PEACE CORPS. Two years in local school systems of developing countries overseas. Develop curricula/teaching aids, train teachers, participate in team teaching workshops. U.S. Citizen, Single or Couples only. Information: Bruce Mazzie, ACTION, OCP Box T-17, Washington, D.C. 20525.

There is no energy shortage

for the sun will shine another 50 billion years, US oil (including shale) deposits exceed those of the Middle East, clean gas can be refined from coal, and breeder reactors will never run out of nuclear fuel.

But the access to that energy is blocked by environmental hysteria, anti-technology sentiment, and interference in free markets. Construction of nuclear plants is delayed by environmental suits, oil and gas exploration is stunted by government controls, scientific research is underfunded (the welfare budget of New York alone is now bigger than the entire budget of NASA!). Even worse, the US now courts disaster by importing 20% of its oil demand from unstable Arab dictatorships, many of them deeply beholden to the Soviets.

You can now *keep informed* of new developments in this vital field of new energy sources and the lack of access to them by subscribing to our pro-science, pro-technology, pro-free enterprise monthly newsletter.

Our staff is not only technically expert in energy matters, but also expert in explaining technological points to laymen. And we report on the political-economic background of the pertinent technology, too.

Comparable newsletters cost from \$25 to over \$100; yet an annual subscription to ours costs only \$6. Please subscribe today. (Should you mistrust the low price, you need not risk \$6; we will send you a free sample on request.)

ACCESS TO ENERGY

stumped

for a gift to young people on your Christmas list? give a membership in THINGS of science. your gift of THINGS of science

will bring a year of pleasure a year of activity and involvement a year of exciting scientific experiments to boys and girls 10 to 16.

There is no more rewarding or welcome gift for a science-minded boy or girl than a membership in THINGS of science. It brings the young scientist constantly changing experiments, exciting learning experiences, new adventures in science every month for an entire year.

Each month he receives a surprise package containing materials and detailed, easy-to-follow instructions for conducting numerous experiments and demonstrations that stimulate interest, activity and involvement in science. These kits are fascinating home learning centers.

THINGS of science ranges the wide fields of science to introduce boys and girls to biology, chemistry, physics, mathematics and many other disciplines—and explains basic scientific laws and principles.

Subjects explored by THINGS of science include

- | | |
|---------------------|---------------------|
| Chemical Models | Hydroponics |
| Probability | Liquid Crystals |
| Life Cycle of a Can | Pinhole Photography |
| Optical Illusions | Topology |
| Touch | Center of Gravity |
| Mirrors | Electrostatics |

special Christmas savings!

Your first gift membership in THINGS of science is \$9.50. Each additional one-year membership is only \$8.50—and you may include your own renewal or new membership at this money-saving rate.

send your gift orders now!
