

500,000 VOLTS ELECTRO-STATIC GENERATOR

KIT

\$45.00 POSTPAID

Easily assembled kit of parts for making a 36" high 500,000 volt electrostatic generator. All parts included except wood base and motor. (Any 1/4 HP motor will suffice.)

200,000 VOLTS. KIT \$29.50 postpaid, 17" high. Diam. 7". Current 1.5 to 2.5 micro-amps. 90% rel. humidity range.

Experiments in Electrostatics—a book with experiments you can do . . . send 50¢. Low priced physics equipment for schools and science projects. Free catalogs—send 15¢ for postage.

Pocket-Size Slide-Switch Resistance Substitution Unit

- Eleven million step range
- 1% Accuracy resistors
- Rugged construction
- Only \$48

Featuring a very broad range of resistance steps, this aluminum-housed unit is unique in its small size. Half-watt, 1% resistors provide a range from 1 to 11,111,110 ohms, in one-ohm steps. Designed with three binding posts—one to ground case—the unit is supplied with 30-inch leads, banana plug to alligator clips. Available from stock.

MATH WITHOUT TEARS

In lively non-technical language Mr. Hartkopf gives you a basic understanding of many of the everyday applications of mathematics.

Emphasizing the practical aspects of math, the author avoids mathematical terms and jargon and takes the reader from simple counting to trigonometry and calculus.

MATH WITHOUT TEARS is written with a light touch and is filled with interesting anecdotes, spiced with humor.

Learn math in the comfort of your own home at minimum cost. ORDER NOW: **MATH WITHOUT TEARS** by Roy Hartkopf \$6.95, plus 30¢ handling 10-Day Money-Back Guar.

Advice to youth on 1974 Science Fairs:

Winning a prize is more satisfying than not winning a prize.

Judges favor projects they can understand.

Well-planned photography may help them understand.

Now—not next spring—is the time to plan.

We offer helpful hints.

HOTTEST TEACHING MACHINE IN SCIENCE TODAY

It looks different. It is different. It's totally designed for science teaching. Academic StereoZoom Microscope by Bausch & Lomb lets science students relate to the specimen being studied without having to take a course in microscopy first.

This unique, Bausch & Lomb microscope combines stereovision with an exclusive

zoom magnification that makes for a natural relationship between the student and the specimen. Scanning the field at low magnification or zooming to a specific detail at higher magnification is as non-technical as watching a quarterback on TV. And list prices for this American-made instrument start at \$151.*

There is no longer an illumination problem. The turn of a knob allows selection of reflected light, transmitted light or a combination of the two, and it uses just one light bulb!

These new instruments are well built, with every safeguard to prevent damage to assure long, maintenance-free, lifetime use.

Write for the new catalog 31-2395 and our free demonstration offer, today.
